Deconstructing Glimpses of World History

An Analysis of Jawaharlal Nehru's Letters to His Daughter

This paper deconstructs Jawaharlal Nehru's extensive account of world history in the form of letters to his daughter, Indira. First published in 1934, *Glimpses of World History* remains an important resource in understanding the formative years of Nehru's perspective of world history and world politics. An analysis of Nehru's text contributes to growing field of scholarship concerned with the uses and approaches to world history. In addition, an analysis of influences on Nehru's construction of world history questions the traditional view that only British perspectives informed Nehru's ideas about the world. In conclusion, this paper suggests that Nehru's world history served as the premise to his key foreign policy initiative, nonalignment, once Nehru

became prime minister of India in 1947.

150 Glimpses of the Beatles *Farrar, Straus and Giroux*

Winner of the 2020 Baillie Gifford Prize for Non-Fiction A distinctive portrait of the Fab Four by one of the sharpest and wittiest writers of our time "If you want to know what it was like to live those extraordinary Beatles years in real time, read this book." —Alan Johnson, *The Spectator* Though fifty years have passed since the breakup of the Beatles, the fab four continue to occupy an utterly unique place in popular culture. Their influence extends far beyond music and into realms as diverse as fashion and fine art, sexual politics and

religion. When they appeared on *The Ed Sullivan Show* in 1964, fresh off the plane from England, they provoked an epidemic of hoarse-throated fandom that continues to this day. Who better, then, to capture the Beatles phenomenon than Craig Brown—the inimitable author of *Ninety-Nine Glimpses of Princess Margaret* and master chronicler of the foibles and foppishness of British high society? This wide-ranging portrait of the four lads from Liverpool rivals the unique spectacle of the band itself by delving into a vast catalog of heretofore unexamined lore. When actress Eleanor Bron touched down at Heathrow with the Beatles, she thought that a flock of starlings had alighted on the roof of the terminal—only to discover that the birds were in fact young women screaming at

the top of their lungs. One journalist, mistaken for Paul McCartney as he trailed the band in his car, found himself nearly crushed to death as fans climbed atop the vehicle and pressed their bodies against the windshield. Or what about the Baptist preacher who claimed that the Beatles synchronized their songs with the rhythm of an infant's heartbeat so as to induce a hypnotic state in listeners? And just how many people have employed the services of a Canadian dentist who bought John Lennon's tooth at auction, extracted its DNA, and now offers paternity tests to those hoping to sue his estate? 150 Glimpses of the Beatles is, above all, a distinctively kaleidoscopic examination of the Beatles' effect on the world around them and the world they helped

bring into being. Part anthropology and part memoir, and enriched by the recollections of everyone from Tom Hanks to Bruce Springsteen, this book is a humorous, elegiac, and at times madcap take on the Beatles' role in the making of the sixties and of music as we know it.

The Sabbath World

**Glimpses of a Different Order of
Time** *Random House Trade Paperbacks*

What is the Sabbath, anyway? The holy day of rest? The first effort to protect the rights of workers? A smart way to manage stress in a world in which computers never get turned off and work never comes to an end? Or simply an oppressive, outmoded rite? In *The Sabbath World*, Judith Shulevitz explores

the Jewish and Christian day of rest, from its origins in the ancient world to its complicated observance in the modern one. Braiding ideas together with memories, Shulevitz delves into the legends, history, and philosophy that have grown up around a custom that has lessons for all of us, not just the religious. The shared day of nonwork has built communities, sustained cultures, and connected us to the memory of our ancestors and to our better selves, but it has also aroused as much resentment as love. The Sabbath World tells this surprising story together with an account of Shulevitz's own struggle to keep this difficult, rewarding day.

The Dawn of Science

Glimpses from History for the Curious Mind *Springer*

This lucid and captivating book takes the reader back to the early history of all the sciences, starting from antiquity and ending roughly at the time of Newton — covering the period which can legitimately be called the “dawn” of the sciences. Each of the 24 chapters focuses on a particular and significant development in the evolution of science, and is connected in a coherent way to the others to yield a smooth, continuous narrative. The at-a-glance diagrams showing the “When” and “Where” give a brief summary of what was happening at the time, thereby providing the broader context of the scientific events highlighted in that chapter. Embellished with colourful photographs and

illustrations, and “boxed” highlights scattered throughout the text, this book is a must-read for everyone interested in the history of science, and how it shaped our world today.

Toward a Global Middle Ages**Encountering the World through Illuminated Manuscripts** *Getty Publications*

This important and overdue book examines illuminated manuscripts and other book arts of the Global Middle Ages. Illuminated manuscripts and illustrated or decorated books—like today’s museums—preserve a rich array of information about how premodern peoples conceived of and perceived the world, its many cultures, and everyone’s

place in it. Often a Eurocentric field of study, manuscripts are prisms through which we can glimpse the interconnected global history of humanity. *Toward a Global Middle Ages* is the first publication to examine decorated books produced across the globe during the period traditionally known as medieval. Through essays and case studies, the volume's multidisciplinary contributors expand the historiography, chronology, and geography of manuscript studies to embrace a diversity of objects, individuals, narratives, and materials from Africa, Asia, Australasia, and the Americas—an approach that both engages with and contributes to the emerging field of scholarly inquiry known as the Global Middle Ages. Featuring 160

color illustrations, this wide-ranging and provocative collection is intended for all who are interested in engaging in a dialogue about how books and other textual objects contributed to world-making strategies from about 400 to 1600.

Women and the Vote

A World History *OUP Oxford*

Before 1893 no woman anywhere in the world had the vote in a national election. A hundred years later almost all countries had enfranchised women, and it was a sign of backwardness not to have done so. This is the story of how this momentous change came about. The first genuinely global history of women and the vote, it takes the story of women in politics from the earliest times to the present day, revealing startling new connections across time and national boundaries - from Europe and North America to Asia, Africa, Latin America, and the Muslim world post-9/11. A story of individuals as well as of wider movements, it includes the

often dramatic life-stories of women's suffrage pioneers from across the world, painting vivid biographical portraits of everyone from Susan B. Anthony and the Pankhursts to hitherto lesser-known activists in China, Latin America, and Africa. It is also the first major post-feminist history of women's struggle for the vote. Controversially, Jad Adams rejects the widely accepted idea that success was primarily a result of the pressure group politics of the suffragists and their supporters. Ultimately, he argues, it was nationalism, not feminism, that was the most important factor in winning women the vote.

Glimpsed *Simon and Schuster*

“Filled with tongue-in-cheek humor...a gently fantastical world brimming with teen shenanigans.” —Publishers Weekly Perfect for fans of *Geekerella* and Jenn Bennett, this charming, sparkly rom-com follows a wish-granting teen forced to question if she’s really doing good—and if she has the power to make her own dreams come true. Charity is a fairy godmother. She doesn’t wear a poofy dress or go around waving a wand, but she does make sure the deepest desires of the student population at Jack London High School come true. And she knows what they want even better than they do because she can glimpse their perfect

futures. But when Charity fulfills a glimpse that gets Vindhya crowned homecoming queen, it ends in disaster. Suddenly, every wish Charity has ever granted is called into question. Has she really been helping people? Where do these glimpses come from, anyway? What if she’s not getting the whole picture? Making this existential crisis way worse is Noah—the adorkable and (in Charity’s opinion) diabolical ex of one of her past clients—who blames her for sabotaging his prom plans and claims her interventions are doing more harm than good. He demands that she stop granting wishes and help him get his girl back. At first, Charity has no choice but to play along. But soon, Noah becomes an unexpected ally in getting to the bottom of the glimpses. Before long,

Charity dares to call him her friend...and even starts to wish he were something more. But can the fairy godmother ever get the happily ever after?

Waves Across the South

A New History of Revolution and Empire *University of Chicago Press*

This is a story of tides and coastlines, winds and waves, islands and beaches. It is also a retelling of indigenous creativity, agency, and resistance in the face of unprecedented globalization and violence. *Waves Across the South* shifts

the narrative of the Age of Revolutions and the origins of the British Empire; it foregrounds a vast southern zone that ranges from the Arabian Sea and southwest Indian Ocean across to the Bay of Bengal, and onward to the South Pacific and the Tasman Sea. As the empires of the Dutch, French, and especially the British reached across these regions, they faced a surge of revolutionary sentiment. Long-standing venerable Eurasian empires, established patterns of trade and commerce, and indigenous practice also served as a context for this transformative era. In addition to bringing long-ignored people and events to the fore, Sujit Sivasundaram opens the door to new and necessary conversations about environmental history, the

consequences of historical violence, the legacies of empire, the extraction of resources, and the indigenous futures that Western imperialism cut short. The result is nothing less than a bold new way of understanding our global past, one that also helps us think afresh about our shared future.

Jawaharlal Nehru *Jaico Publishing House*

Jawaharlal Nehru has won the admiration of the people of India and the world as a national leader, as a writer, as a humanist etc. Anyone who wishes to understand the controversial aspects of his personality would do well to peruse this biography. This work also traces the history of the freedom movement in India. The occasional glimpses of the

family life of Nehru are enlivening. He was the most remarkable statesman, a man who enthralled everyone with his magical personality; a leader who was literally hero-worshipped and an orator of the order, who, once he climbed the rostrum and took the microphone in his hand, became one with the audience and held them spellbound. The colourful and complex personality of Nehru is viewed through Indian eyes a fact which makes the book all the more interesting.

The Glimpses of the Moon *The Floating Press*

From the author that penned beloved literary classics such as *The Age of Innocence* and *The House of Mirth* comes *The Glimpses of the Moon*, the surprisingly funny tale of an unlikely

romance that arises between newlyweds on an extended honeymoon who have married for convenience, rather than for love.

A History of the World in 100 Objects *Penguin UK*

This book takes a dramatically original approach to the history of humanity, using objects which previous civilisations have left behind them, often accidentally, as prisms through which we can explore past worlds and the lives of the men and women who lived in them. The book's range is enormous. It begins with one of the earliest surviving objects made by human hands, a chopping tool from the Olduvai gorge in Africa, and ends with an object from the 21st century which represents the world we

live in today. Neil MacGregor's aim is not simply to describe these remarkable things, but to show us their significance - how a stone pillar tells us about a great Indian emperor preaching tolerance to his people, how Spanish pieces of eight tell us about the beginning of a global currency or how an early Victorian tea-set tells us about the impact of empire. Each chapter immerses the reader in a past civilisation accompanied by an exceptionally well-informed guide. Seen through this lens, history is a kaleidoscope - shifting, interconnected, constantly surprising, and shaping our world today in ways that most of us have

never imagined. An intellectual and visual feast, it is one of the most engrossing and unusual history books published in years.
