Effect of "Developmental Speech and Language Training Through Music" on Speech Production in Children with Autism Spectrum Disorders Hayoung A. Lim, PhD, MT-BC, NMT Journal of Music Therapy, Volume 47, Issue 1, Spring 2010, Pages 2-26, <https://doi.org/10.1093/jmt/47.1.2>

Effect of "Developmental Speech and Language Training ...

Speech and Language The first few years of a child's life are key to the development of speech, language and cognitive skills. For this reason it is important to create an environment that helps to develop speech and language skills that give them all the stimulation, positive role modelling and human contact that they need.

Activities to develop Speech and Language Skills

The first 3 years of life, when the brain is developing and maturing, is the most intensive period for acquiring speech and language skills. These skills develop best in a world that is rich with sounds, sights, and consistent exposure to the speech and language of others. There appear to be critical periods for speech and language development in infants and young children when the brain is best able to absorb language.
