The Power Of Limits Proportional

The essential concept
in this book is the
'power of limits.' Doczi
shows that this limiting
factor is the golden
section. And he does it
using almost no math!
The golden section has
the powerful quality
that division or
expansion by this
proportion always
leads to harmonious
growth.

The golden section has the powerful quality that division or expansion by this proportion always leads to harmonious growth. No matter how small or large is the division, there is never anything "left over" to create disharmony. This limiting factor is of transcendental power, thus "The Power of Limits."

**The Power of Limits:
Proportional
Harmonies in
Nature, Art ...**

The Power of Limits contains everything we need to know about the hidden formula that governs all of our physical attributes on earth. As a designer and artist, this is a

must read book that explains the most fundamental human psychology on the subject of beauty and whatever we may find comfortable and familiar.

**The Power of Limits:
Proportional
Harmonies in
Nature, Art ...**

The joining of unity and diversity in the discipline of proportional limitations creates forms that are beautiful to us because they embody the principles of the cosmic order of which we are a part; conversely, the limitlessness of that order is revealed by the strictness of its forms.

The Power of Limits
was inspired by those
simple discoveries of
harmony. The author
then went on to
investigate and
measure hundreds of
patterns--ancient and
modern, minute and
vast. His discovery,

vividly illustrated here,
is that certain
proportions occur over
and over again in all
these forms.
