During testing, The Kiel Center implemented a structured template for use during the shift handover preparation, with the goal being to catch and clarify the small (even miniscule) changes and events that later may have the potential for significant impact. It was proved that by leveraging the structured template, operators were prompted to recall all important and relevant information that would have otherwise been forgotten, or been left to fall through the cracks.

Shift-Handover: Structured Logbook Design — Yokogawa ...

Use Template This shift report template is meant to be used by managers and supervisors in the airline industry. The shift report example is focused on employees working on the baggage carousel in an airport. The report is quite detailed and will allow the manager to include incidents, delays, tardiness, safety and lost items.
