Monistic theorists were again of two opinions. One group denied that there was anything called mind and held that all activities and actions involved only the body. Such a view was called physical monism. On the other hand, the other group held that the mind is the only entity and the body was not real. Such a view was called psychical monism.

Relationship between Human Body and Mind | Psychology

Awareness of the mind-body connection is by no means new. Until approximately 300 years ago, virtually every system of medicine throughout the world treated the mind and body as a whole. But during the 17th century, the Western world started to see the mind and body as two distinct entities. In this view, the body was kind of like a machine ...
