Trying to get a used Sharp VH3 mill ready for service. Need to change the variable speed belt - has a small chunk missing; works, but noisy. Have the original manual - no help except for parts list and diagrams. Speed appears to be adjusted manually at rear (motor) and sprung at front under the electric brake. I can

probably figure it out if I go slow, but wondered if anyone has been there ...

Parts Book | Sharp Industries Inc.

I've heard of a Sharp VH3 mill for sale near by and am going to look at it in a couple of days. I'd like to hear opinions on this machine from anyone who has experience with one. Also, the mill I'm going to look at is said to have "Fanuc 3M control" - what might that mean? When I hear "Fanuc" I think CNC, but the VH3 appears to be a manual machine??
