History and Philosophy of Psychology | BPS

The History and Philosophy of Psychology section is an interdisciplinary section that looks at the intersection between the three areas, bringing together psychologists, historians and

philosophers. While we are primarily interested in both the history of psychology and the philosophy of psychology, there exists a growing awareness and understanding that it is in the dialogue between the two where the most is to be gained in terms of looking back, assessing the present and moving forward.

History and Philosophy of Psychology Section | BPS

While psychology did not emerge as a separate discipline until the late 1800s, its earliest history can be traced back to the time of the early Greeks. During the 17th-century, the French philosopher Rene Descartes introduced the idea of dualism, which asserted that the mind and body were two entities that interact

to form the human experience.

The History Of Psychology and Philosophy

The authors demonstrate that psychology is both a human (i.e. psychoanalytic or phenomenological) and natural (i.e. cognitive) science, exploring broad social-historical and philosophical themes such as the role of diverse cultures and women in psychology, and the complex relationship between objectivity and subjectivity in the development of psychological knowledge.

A Critical History and Philosophy of Psychology: Diversity ...

Philosophy of psychology is a relatively young field because "scientific" psychology—that is, the psychology that favors experimental methods over

introspection—came to dominate psychological studies only in the late 19th century. One of philosophy of psychology's concerns is to evaluate the merits of the many different schools of psychology that have been and are practiced.

Philosophy of psychology - Wikipedia

Psychology is a relatively young science with its experimental roots in the 19th century, compared, for example, to human physiology, which dates much earlier. As mentioned, anyone interested in exploring issues related to the mind generally did so in a philosophical context prior to the 19th century.
