ETH - International Conflict Research - Lars-Erik Cederman

War, in the popular sense, a conflict between political groups involving hostilities of considerable duration and magnitude.In the usage of social science, certain qualifications are added. Sociologists usually apply the term to such conflicts only if they are initiated and conducted in accordance with socially recognized forms.

List of wars | Britannica

between Political Instability and National Economic Performance* Current empirical growth models limit the determinants of country growth to geographic, economic, and institutional variables. This study draws on conflict variables from the Correlates of War (COW) project to ask a critical question: How do different types of conflict
