A methodological advisor or consultant provides methodological and statistical advice and guidance to clients interested in making decisions regarding the design of studies, the collection and analysis of data, and the presentation and dissemination of research findings. Trained in both methods and statistics and communication skills, advisors may work in academia, industry, or the public sector.

Methodological advisor - Wikipedia

A questionnaire is a research instrument consisting of a series of questions (or other types of prompts) for the purpose of gathering information from respondents. The questionnaire was invented by the Statistical Society of London in 1838.. Although questionnaires are often designed for statistical analysis of the responses, this is not always the case. ...
