Mental Models in Discourse Processing and Reasoning, 128 ...

Different depths of processing of a discourse can be detected on a continuum, starting from shallow levels – at which the listener constructs a mental representation of the discourse in a propositional format – up to deep levels of processing – at which the listener creates an articulated mental model of the contents of the discourse. A discourse mental model represents the state of affairs to which a discourse refers by integrating temporal, spatial, causal, motivational, and person ...

Mental Models in Discourse Processing and Reasoning ...

Conversely, mental models also play a role in the much neglected theo- ry of discourse production, viz., as the mental point of departure of all text and talk, from which relevant information may be selected for the strategic construction of their global and local semantic structures.

Cognitive Context Models and Discourse

A mental model is an explanation of someone's thought process about how something works in the real world. It is a representation of the surrounding world, the relationships between its various parts and a person's intuitive perception about his or her own acts and their consequences. Mental models can help shape behaviour and set an approach to solving problems and doing tasks. A mental model is a kind of internal symbol or representation of external reality, hypothesized to play a major role i
