Quadratic Unit

The function $f(x) = ax^2 + bx + c$ is a

quadratic function. The

graph of any quadratic

function has the same

general shape, which is

called a parabola. The

location and size of the

parabola, and how it

opens, depend on the

values of a , b , and c . As

shown in Figure 1, if a

> 0 , the parabola has a

minimum point and

opens upward. If $a < 0$,

the parabola has a

maximum point and

opens downward.
