The Physicians Role In Home

Abstract. Physician involvement in home care has declined markedly over the past 50 years. By contrast, the renaissance in home care in the US over the last decade has created a pressing need for greater physician participation

and new roles for physicians as members of the home care team. This article reviews these developments and identifies the need for improved medical education and physician reimbursement if the desired physician involvement in home care is to become a reality.

The Physicians Role In Home Health Care [PDF, EPUB EBOOK]

The patient-centered medical home (PCMH) enables this coordination to happen, continuously throughout a patient's life. The primary care physician's role is vital to the patient in a PCMH, both from the perspective of the patient's overall health and because of the current trend toward value-based care. The number of patient visits is no longer as important as the outcome of those visits, for the patient and for the physician.
