VW central locking - Baggy. I've got the same problem with my wifes 1998 1.4 VW Golf. The central locking mechanism works fines, i.e will lock with key via the door and if the key is in the first position in the ignition , the interior locking button will lock all 4 doors. The problem is when I start the car, all 4 doors locks open automatically with no

way to use the interior button to re-lock.

The door lock works in only one direction: This issue also indicates a bad lock actuator. Locks work from the switch, but not the remote: If this happens, the problem is with the remote. The battery is likely dead and needs to be replaced, but the remote(s) may also need to be reprogrammed to work.

I have a similar issue with my 2015 Jetta TSI door locks but wanted to run this by you.

Purchased the car new and the issue started at around 42K miles.

The issue is that I can not lock any car door.

The fob does not lock the doors, the master door switch does not lock the doors and in addition, the trunk release does not operate.
