Digital Personalized Health and Medicine

Proceedings of MIE 2020 *IOS Press*

Digital health and medical informatics have grown in importance in recent years, and have now become central to the provision of effective healthcare around the world. This book presents the proceedings of the 30th Medical Informatics Europe conference (MIE). This edition of the conference, hosted by the European Federation for Medical Informatics (EFMI) since the 1970s, was due to be held in Geneva, Switzerland in April 2020, but as a result of measures to prevent the spread of the Covid19 pandemic, the conference itself had to be cancelled. Nevertheless, because this collection of papers offers a wealth of knowledge and experience across the full spectrum of digital health and medicine, it was decided to publish the submissions accepted in the review process and confirmed by the Scientific Program Committee for publication, and these are published here as planned. The

232 papers are themed under 6 section headings: biomedical data, tools and methods; supporting care delivery; health and prevention; precision medicine and public health; human factors and citizen centered digital health; and ethics, legal and societal aspects. A 7th section deals with the Swiss personalized health network, and section 8 includes the 125 posters accepted for the conference. Offering an overview of current trends and developments in digital health and medical informatics, the book provides a valuable information resource for researchers and health practitioners alike.

The Routledge Handbook of Remix Studies and Digital Humanities *Routledge*

In this comprehensive and highly interdisciplinary companion, contributors reflect on remix across the broad spectrum of media and culture, with each chapter offering in-depth reflections on the relationship between remix studies and the digital humanities. The anthology is organized into sections that explore remix studies and digital humanities in relation to topics such as archives, artificial intelligence, cinema, epistemology, gaming, generative art, hacking, pedagogy, sound, and VR, among other subjects of study. Selected chapters focus on practice-based projects produced by artists, designers, remix studies scholars, and digital humanists. With this mix of practical and theoretical chapters, editors Navas, Gallagher, and burrough offer a tapestry of critical reflection on the contemporary cultural and political implications of remix studies and the digital humanities, functioning as an ideal reference manual to these evolving areas of study across the arts, humanities, and social sciences. This book will be of particular interest to students and scholars of digital humanities, remix studies, media arts, information studies, interactive arts and technology, and digital media studies.

Oncologic Emergency Medicine

Principles and Practice *Springer Nature*

The expanded second edition of this key clinical reference provides the most up-to-date and comprehensive review of oncologic emergencies. It covers the diagnosis and management of the full range of emergencies caused directly by cancer and/or treatment, including chemotoxicity, radiotoxicity and post-surgical complications, as well as transplant-related issues and toxicities of novel antineoplastic agents and the new immunotherapies. The book also shows how the entire spectrum of clinical medicine is brought to bear in the care of cancer patients in the unique setting of the emergency department (ED), from health promotion and prevention, to treatment and palliative care. Recognizing the multiple, overlapping contexts in which emergency care of cancer patients occurs, the book addresses clinically crucial interdisciplinary topics such as the ethics of ED cancer care, analgesic misuse and abuse, informatics, quality improvement and more. Finally, perspectives on care system and social forces that shape ED cancer care, such as cancer care disparities and care models, frame the book as a whole. Edited and written by world-renowned experts in emergency medicine and oncology, the Second Edition of *Oncologic Emergency Medicine: Principles and Practice* is the definitive resource for emergency physicians, oncologists, internists, family physicians, emergency nurses, nurse practitioners, physician assistants, and policy makers as well as pre and postgraduate trainees.

Machine Ethics and Robot Ethics *Routledge*

Once the stuff of science fiction, recent progress in artificial intelligence, robotics, and machine learning means that these rapidly advancing technologies are finally coming into widespread use within everyday life. Such rapid development in these areas also brings with it a host of social, political and legal issues, as well as a rise in public concern and academic interest in the ethical challenges these new technologies pose. This volume is a collection of scholarly work from leading figures in the development of both robot ethics and machine ethics; it includes essays of historical significance which have become foundational for research in these two new areas of study, as well as important recent articles. The research articles selected focus on the control and governance of computational systems; the exploration of ethical and moral theories using software and robots as laboratories or simulations; inquiry into the necessary requirements for moral agency and the basis and boundaries of rights; and questions of how best to design systems that are both useful and morally sound. Collectively the articles ask what the practical ethical and legal issues, arising from the development of robots, will be over the next twenty years and how best to address these future considerations.

Implications for Healthcare Leaders

Technology for Adaptive Aging *National Academies Press*

Emerging and currently available technologies offer great promise for helping older adults, even those without serious disabilities, to live healthy, comfortable, and productive lives. What technologies offer the most potential benefit? What challenges must be overcome, what problems must be solved, for this promise to be fulfilled? How can federal agencies like the National Institute on Aging best use their resources to support the translation from laboratory findings to useful, marketable products and services? Technology for Adaptive Aging is the product of a workshop that brought together distinguished experts in aging research and in technology to discuss applications of technology to communication, education and learning, employment, health, living environments, and transportation for older adults. It includes all of the workshop papers and the report of the committee that organized the workshop. The committee report synthesizes and evaluates the points made in the workshop papers and recommends priorities for federal support of translational research in technology for older adults.

Turning the Page**The Evolution of the Book** *Routledge*

This is an exciting period for the book, a time of innovation, experimentation, and change. It is also a time of considerable fear within the book industry as it adjusts to changes in how books are created and consumed. The movement to digital has been taking place for some time, but with consumer books experiencing the transition, the effects of digitization can be clearly seen to everybody. In *Turning the Page* Angus Phillips analyses the fundamental drivers of the book publishing industry - authorship, readership, and copyright - and examines the effects of digital and other developments on the book itself. Drawing on theory and research across a range of subjects, from business and sociology to neuroscience and psychology, and from interviews with industry professionals, Phillips investigates how the fundamentals of the book industry are changing in a world of ebooks, self-publishing, and emerging business models. Useful comparisons are also made with other media industries which have undergone rapid change, such as music and newspapers. This book is an ideal companion for anyone wishing to understand the transition of the book, writing and publishing in recent years and will be particularly relevant to students studying publishing, media and communications.

Discipline and Punish**The Birth of the Prison** *Vintage*

In this brilliant work, the most influential philosopher since Sartre suggests that such vaunted reforms as the abolition of torture and the emergence of the modern penitentiary have merely shifted the focus of punishment from the prisoner's body to his soul.

The Egoscue Method of Health Through Motion**Revolutionary Program of Stretching and** *Harper Collins*

No one is immune. For people from champion athletes to desk-bound white-collar professionals, many simple acts of life--a relaxing evening stroll through the neighborhood, an exhilarating run along a sandy beach, just bending down to tie a loose shoelace--are often acts of torture. The walking wounded suffer from torn rotator cuffs, tennis elbow, jogger's knees, bad backs, stiff necks, sore feet, and swollen ankles. It could, without exaggeration, be called a modern epidemic. In this brilliant book, renowned anatomical functionalist Pete Egoscue identifies the epidemic's causes and effects. By recognizing that the human body is dependent on adequate motion to maintain its full range of physical functions, he has revolutionized both the treatment of musculoskeletal pain and the techniques for training athletes to achieve peak performance levels. Brimming with common sense and practical advice, the heart of this important book consists of twenty-two easy-to-do, highly effective exercises that stretch, strengthen, and relax the body, allowing a return to proper alignment.

Tears of a Tiger *Simon and Schuster*

Three boys struggle to come to terms with the death of a friend in a drunk-driving auto accident in which all four were involved, in a story told through newspaper stories, diary entries, school announcements, telephone conversations, and classroom assignments.

Willings Press Guide**United Kingdom** *Cision Uk Limited*

Managing Chronic Pain in an Age of Addiction *Rowman & Littlefield*

Chronic pain is challenging to treat in the face of an ongoing opioid crisis. Akhtar Purvez's authoritative account of pain management explores the complex and competing factors involved. He discusses approaches including advanced interventional procedures, non-opioid medications, physical therapy, and behavioral and psychologic support.

Wintrobe's Clinical Hematology *Lippincott Williams & Wilkins*

With the 13th edition, Wintrobe's Clinical Hematology once again bridges the gap between the clinical practice of hematology and the basic foundations of science. Broken down into eight parts, this book provides readers with a comprehensive overview of: Laboratory Hematology, The Normal Hematologic System, Transfusion Medicine, Disorders of Red Cells, Hemostasis and Coagulation; Benign Disorders of Leukocytes, The Spleen and/or Immunoglobulins; Hematologic Malignancies, and Transplantation. Within these sections, there is a heavy focus on the morphological exam of the peripheral blood smear, bone marrow, lymph nodes, and other tissues. With the knowledge about gene therapy and immunotherapy expanding, new, up-to-date information about the process and

application of these therapies is included. Likewise, the editors have completely revised material on stem cell transplantation in regards to both malignant and benign disorders, graft versus host disease, and the importance of long-term follow-up of transplantation survivors.

Running with Scissors

A Memoir *St. Martin's Press*

Now including an excerpt from *Lust & Wonder*, a new memoir coming in March 2016. *Running with Scissors* is the true story of a boy whose mother (a poet with delusions of Anne Sexton) gave him away to be raised by her psychiatrist, a dead-ringer for Santa and a lunatic in the bargain. Suddenly, at age twelve, Augusten Burroughs found himself living in a dilapidated Victorian in perfect squalor. The doctor's bizarre family, a few patients, and a pedophile living in the backyard shed completed the tableau. Here, there were no rules, there was no school. The Christmas tree stayed up until summer, and Valium was eaten like Pez. And when things got dull, there was always the vintage electroshock therapy machine under the stairs.... *Running with Scissors* is at turns foul and harrowing, compelling and maniacally funny. But above all, it chronicles an ordinary boy's survival under the most extraordinary circumstances.

Complementary and Alternative Medicine in Breastfeeding Therapy

Sometimes there are challenges for lactation therapists that can't be completely resolved by current lactation practices--when the baby has reflux or torticollis, when mother and baby are injured or in pain, when the mother can't relax enough to sleep, when weeks of pumping erode the mother's energy to the point she wants to quit breastfeeding. In *Complementary and Alternative Medicine in Breastfeeding Therapy*, author Nikki Lee describes mother-baby situations that benefit from complementary and alternative therapy techniques in order to have a thriving baby and a happy mother, with an abundant milk supply and easy breastfeeding. In her experience complementary therapies, when used in conjunction with proven breastfeeding management, do no harm and usually help mother and baby. Therapies covered include: -Creating a healing environment -Skin-to-skin and massage -Acupuncture -Chiropractic -Craniosacral therapy -Remedial co-bathing -Homeopathy This book is not an instruction manual. It is an open door to the world of other ways of healing. Some or all of these therapies may be gentle and helpful additions to your lactation toolbox.

Adventures at Girnar Mountain

Fantasy for Teens Series Season 1 *ideazunlimited3@gmail.com*

An Adventure fantasy for family entertainment, loved by kids, Parents and Grandparents. Two innocent siblings Riya and Ricky were supposed to cut into pieces by Girnar wizard, Raktakak.. Her skeleton body was deadly dangerous. She was having chicken legs with big nails. She was chewing dry toad, whose green juice was coming out from right side of the mouth. . Her left hands first finger has a ring in which live scorpion was resting. Middle finger was decorated with transparent glass ring in which a small bat was sleeping inside... . What happened next? . Baleshwar landed in front of

banyan tree and prostrated (pranam in Hindi) said loudly "Bam Bhole". The old wise tree began to woke up with great pain. There was a very strong sound from the stem. "Baleshwar! How did you come?" Ba-leshwar jumped with reverence (Shraddhabhav in Hindi)... Someone in drove pulled out the sword and cut my neck. My neck split from the body. .My body floundered. . The fountain of blood started from my throat. . All disciples of 'Aghor' were dancing and drinking my blood. My dead head fell in-to bushes. . My soul was out of my body. I could see my body from outside. My body was fluttering, and I was not able to do anything. . My soul reached in the ghost cunt. I left human cunt. I was watching how these murderers were eating my flesh. . One 'Cunt' forced dagger in my chest and pulled out my heart. My heart was alive until then. It was beating 'dhak dhak dhak'. It has a lot of blood in it. He started sucking my blood as if drinking coconut water. Those 'Aghor' people were very happy, by killing me.... . The light of his 'Snakestone' (Nag Mani) spread all over in the jungle. . Thirteen 'Aghori' were engaged in performing black magic, playing with some ghosts, at a secret place in the forest. They have seen the light of Snakestone. (Nag Mani) . What happened next? . Ricky was shocked "Oh my goodness! 'Rice Puller'! . The whole world is crazy for it. Nasa's scientists are also behind this. It is near me! Unbelievable!! I know it is worth of billions. "....Hermit scared. He came to know that they have now entered in the elusive area of 'Raktakak'. . What happened next? . Hermit tossed the broken shank towards crocodile. Hermit cut another shank of zebra and threw towards the monster. Then Hermit picked up the zebra and crumpled it into pieces. He was tossing pieces of zebra. Ricky and Riya were stunned after looking at this. Hermit was extremely cruel with the zebra, throwing its parts towards the demon-crocodile. Why did Hermit do this? The next surprise was ... What happened next? . What happened next? . Fearful, Betal said, "I do not know what you have a grudge with 'Raktakak', but to remove this rock, you have to answer some of my mysterious questions. If you answer it right then the rock will move automatically and the path will open. " Betal asked the first question, "Twenty seven minus nine, what is the answer?" Baleshwar was thinking, Ricky spoke out loud, "zero, zero!" Kalbhairav is a form of Lord Shiva. Grey's body but bright eyes. Divine cinder was on the whole body, which caused the sharp aroma of the incense sticks. The light was spreading all around his body. . Dogs were around him, the eternal servants stand with their folded hands. The black clothes were shining on the body. . The third eye was blinking in between. The third eye was shaking; perhaps God was angry. . What happened next? . Even with more anger, he was swinging the sword. Riya was struggling to withstand his sword with a small dagger. He cut Ricky's right hand with the sword. Ricky shouted. Now Riya got even angrier and she attacked Raktakak with full force. What happened next? . Grab your copy right now. Health IT and Patient Safety

Building Safer Systems for Better Care *National Academies Press*

IOM's 1999 landmark study To Err is Human estimated that between 44,000 and 98,000 lives are lost every year due to medical errors. This call to action has led to a number of efforts to reduce errors and provide safe and effective health care. Information technology (IT) has been identified as a way to enhance the safety and effectiveness of care. In an effort to catalyze its implementation, the U.S. government has invested billions of dollars toward the development and meaningful use of effective health IT. Designed and properly applied, health IT can be a positive transformative force for delivering safe health care, particularly with computerized prescribing and medication safety.

However, if it is designed and applied inappropriately, health IT can add an additional layer of complexity to the already complex delivery of health care. Poorly designed IT can introduce risks that may lead to unsafe conditions, serious injury, or even death. Poor human-computer interactions could result in wrong dosing decisions and wrong diagnoses. Safe implementation of health IT is a complex, dynamic process that requires a shared responsibility between vendors and health care organizations. Health IT and Patient Safety makes recommendations for developing a framework for patient safety and health IT. This book focuses on finding ways to mitigate the risks of health IT-assisted care and identifies areas of concern so that the nation is in a better position to realize the potential benefits of health IT. Health IT and Patient Safety is both comprehensive and specific in terms of recommended options and opportunities for public and private interventions that may improve the safety of care that incorporates the use of health IT. This book will be of interest to the health IT industry, the federal government, healthcare providers and other users of health IT, and patient advocacy groups.

She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first "immortal" human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb's effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta's family did not learn of her "immortality" until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta's daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn't her children afford health

insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

In 1929, in the blue-collar city of Portsmouth, Ohio, a company built a swimming pool the size of a football field; named Dreamland, it became the vital center of the community. Now, addiction has devastated Portsmouth, as it has hundreds of small rural towns and suburbs across America--addiction like no other the country has ever faced. How that happened is the riveting story of Dreamland. With a great reporter's narrative skill and the storytelling ability of a novelist, acclaimed journalist Sam Quinones weaves together two classic tales of capitalism run amok whose unintentional collision has been catastrophic. The unfettered prescribing of pain medications during the 1990s reached its peak in Purdue Pharma's campaign to market OxyContin, its new, expensive--extremely addictive--miracle painkiller. Meanwhile, a massive influx of black tar heroin--cheap, potent, and originating from one small county on Mexico's west coast, independent of any drug cartel--assaulted small town and mid-sized cities across the country, driven by a brilliant, almost unbeatable marketing and distribution system. Together these phenomena continue to lay waste to communities from Tennessee to Oregon, Indiana to New Mexico. Introducing a memorable cast of characters--pharma pioneers, young Mexican entrepreneurs, narcotics investigators, survivors, and parents--Quinones shows how these tales fit together. Dreamland is a revelatory account of the corrosive threat facing America and its heartland.

How Technologies Will Change Sports in the Digital Age *Springer Nature*

This book outlines the effects that technology-induced change will have on sport within the next five to ten years, and provides food for thought concerning what lies further ahead. Presented as a

collection of essays, the authors are leading academics from renowned institutions such as Massachusetts Institute of Technology, Queensland University of Technology, and the University of Cambridge, and practitioners with extensive technological expertise. In their essays, the authors examine the impacts of emerging technologies like artificial intelligence, the Internet of Things, and robotics on sports and assess how they will change sport itself, consumer behavior, and existing business models. The book will help athletes, entrepreneurs, and innovators working in the sports industry to spot trendsetting technologies, gain deeper insights into how they will affect their activities, and identify the most effective responses to stay ahead of the competition both on and off the pitch.

To Gently Leave This Life

The Right to Die: 2018 Updates Edition Blue Danube Publishing

The concept of a "good death" has been debated since the beginning of civilization. In the 21st Century, longer lifespans and advances in medicine have resulted in new legislation regarding an individual's "right to die." The option to end one's own life, when pain becomes intolerable or the quality of life is nonexistent, is an issue at the forefront of modern society. Who among us would trade places with a patient, dependent on machines and other people, for every aspect of their life? Who among us wouldn't choose doctor-assisted death, if that option were available? During the last two decades, the states of Oregon, Washington, and Montana passed euthanasia legislation, and in the Netherlands, Belgium, and Luxembourg, similar end-of-life regulations were authorized. However, in 2012, two court cases examining physician-assisted death could lead to new international precedents: Gloria Taylor, who suffered from Lou Gehrig's disease, became the first person in Canada to be granted the "right to die" via a "personal exemption" by British Columbia's Supreme Court; in Britain, Tony Nicklinson, who suffered from "locked-in syndrome" and could only communicate by blinking, died from pneumonia after refusing food and fluids subsequent to a High Court decision that refused to grant him assisted death. In this age of medical technology, of machines sustaining lives irrespective of quality of life and dignity, we often discount the concept of a "good death." Allowing terminally ill people to pass on quickly and peacefully does not encroach on the civil liberties of others. Euthanasia legislation allows patients to operate within the medical system and ease their anxiety, while giving friends and family peace of mind. Assessing the quality of life, and allowing patients who suffer from debilitating pain and dependence on others to gently leave this life, gives people a dignified alternative. Read To Gently Leave This Life to learn what you

need to know about end-of-life decisions. To Gently Leave This Life is the perfect reference book for the grassroots activist, legislator, and for people who are dealing with their own or a loved one's terminal illness.

Extracorporeal Membrane Oxygenation

Advances in Therapy BoD – Books on Demand

Extracorporeal membrane oxygenation (ECMO), despite a long and troubled history, is very rapidly evolving into a therapy that can be safely and effectively applied across the world in patients experiencing acute cardiac and/or pulmonary failure. As experiences grow, there is a better understanding of nuances of the importance of teamwork, therapy guidelines and protocols, patient selection, and understanding the functional aspects of pump-circuit technology as it interfaces with human biology. The challenges in managing these very sick and complex patients cannot be understated. The goal of this text is to provide a framework for the development and successful growth of a program. Authors from Centers of Excellence Worldwide have shared their experiences in the full spectrum in dealing with this evolving field.

A Plan for Living with Artificial Intelligence *Chapman & Hall/CRC Artificial Intelligence and Robotics Series*

AI by Design introduces the reader to Artificial Intelligence and its importance to our future. Exploring behavioural psychology, economics, and real-life and historical examples, Campbell predicts five future scenarios with AI, orientated around the Singularity - the moment when AI exceeds human capabilities, presenting perhaps the biggest challenge to our existence. We are at a tipping point in history and must act now to stop an extinction-level event for humanity. This book explains how to design a future with AI so that, rather than herald our downfall, it may help us achieve more.

Blackmail : A Romantic hate story

Romantic sexy love hate story *ideazunlimited3@gmail.com*

Rajni understood the art of Romance. She used to press and pull Ajay's nipples lightly with her delicate fingers... A foolish wife chatters during sexual intercourse. She demands something to her husband. Or keeps her body stiff like a corpse... The husband is not allowed to take off all the clothes... He was worried about, putting his weight on her while riding on her. Then he found an idea. When the wife is in the position of twelve and a half of the clock, he himself used to sleep in the position of nine past quarter. Then asks wife to bend both knees. Then he used to comfortably enter the pe** into the va** from left. He used to wife's inner wears. Some were perfumed nicks, fluorescent knickers, lighting bras, choosing the right size of bra, etc. The innerwear sets for outdoor, period, regular use. Rajni was not only a beautiful woman... ..God Indra would be jealous of me, because the nymph of his court makes tea for me everyday..... It doesn't need a love between husband and wife. This is happening from ancient time. A woman allows her husband to have sex, return, of property, money, and comfort. Even in Stone Age, a cave woman used to handle the cave,

against part of the hunt and food. ... "Look, nothing has changed even today. Read 'Matrimony'. Girls are looking for a man who has his own house, a good salary, a four-wheeler, a good bank balance. No girl is looking for a beautiful boy earning nothing. And see what men want, beautiful, perfect figure girl, attractive skin complexion, no one wants a highly intellectual girl.. The sun was now shattered into ashes; few blood-red rays' strokes were lingering behind, which were in hurry to return their home, to shut down themselves in darkness. The sea birds were returning to their nests with chirping panic. The light was flicking in every single room. Somewhere, there was a fight between husband and wife. Somewhere two women were quarreling. A drunkard was screaming and crying in his sorrow. In the dark, some young boys and girls were whispering in the corner. Whispering laughter was following in between... A radical change took place in the personal lives of women, by contraceptive pills. The woman was unable to enjoy love and sex with the fear of pregnancy. However, now she started to enjoy love and sex through orgasm. Instead of 'giving' pleasure to man, she started "to ask" for pleasure from a man. A great change!.. The women who wish to enjoy free sex, who willingly want to go with many men, women who do not want to work hard to live, or who hate her own body, who find her body as a shop and by their own will wants to go under prostitution.. ". condoms have dots with lubricant. So while intercourse a woman does not feel pains, because of lubricant on it. It may not create a natural lubricant in the vagina. Due to dryness, a woman feels pains while intercourse. Many times, it creates wounds inside. Due to detention, a wife gets good sleep because the sticky semen is thrown out. So the next day she is fresh again '. Nature has given the responsibility of carrying the human race, to males than females. Because of which he will always think about sex. Nothing is wrong in it. Do you know when a woman is lustful? Not at the age of sixteen .. After the age of forty ... Product Description: This mysterious story has basic plot of social media misuse. Keywords in Remix Studies *Routledge*

Keywords in Remix Studies consists of twenty-four chapters authored by researchers who share interests in remix studies and remix culture throughout the arts and humanities. The essays reflect on the critical, historical and theoretical lineage of remix to the technological production that makes contemporary forms of communication and creativity possible. Remix enjoys international attention as it continues to become a paradigm of reference across many disciplines, due in part to its interdisciplinary nature as an unexpectedly fragmented approach and method useful in various fields to expand specific research interests. The focus on a specific keyword for each essay enables contributors to expose culture and society's inconclusive relation with the creative process, and questions assumptions about authorship, plagiarism and originality. Keywords in Remix Studies is a resource for scholars, including researchers, practitioners, lecturers and students, interested in some or all aspects of remix studies. It can be a reference manual and introductory resource, as well as a teaching tool across the humanities and social sciences.
