Manhood in the Making

Cultural Concepts of Masculinity *Yale University Press*

Offers a cross-cultural study of manhood as an achieved status, and looks at two androgynous cultures that are exceptions to the manhood archetype

Manhood in the Making

Cultural Concepts of Masculinity

Misogyny

The Male Malady *University of Pennsylvania Press*

"Yes, women are the greatest evil Zeus has made, and men are bound to them hand and foot with impossible knots by God."—Semonides, seventh century B.C. Men put women on a pedestal to worship them from afar—and to take better aim at them for the purpose of derision. Why is this paradoxical response to women so widespread, so far-reaching, so all-pervasive? Misogyny, David D. Gilmore suggests, is best described as a male malady, as it has always been a characteristic shared by human societies throughout the world. Misogyny: The Male Malady is a comprehensive historical and anthropological survey of woman-hating that casts new light on this age-old bias. The turmoil of masculinity and the ugliness of misogyny have been well documented in different cultures, but Gilmore's synoptic approach identifies misogyny in a variety of human experiences outside of sex and marriage and makes a fresh and enlightening contribution toward understanding this phenomenon. Gilmore maintains that misogyny is so widespread and so pervasive among men that it must be at least partly psychogenic in origin, a result of identical experiences in the

male developmental cycle, rather than caused by the environment alone. Presenting a wealth of compelling examples—from the jungles of New Guinea to the boardrooms of corporate America—Gilmore shows that misogynistic practices occur in hauntingly identical forms. He asserts that these deep and abiding male anxieties stem from unresolved conflicts between men's intense need for and dependence upon women and their equally intense fear of that dependence. However, misogyny, according to Gilmore, is also often supported and intensified by certain cultural realities, such as patrilineal social organization; kinship ideologies that favor fraternal solidarity over conjugal unity; chronic warfare, feuding, or other forms of intergroup violence; and religious orthodoxy or asceticism. Gilmore is in the end able to offer steps toward the discovery of antidotes to this irrational but global prejudice, providing an opportunity for a lasting cure to misogyny and its manifestations.

Secret Ritual and Manhood in Victorian America *Yale University Press*

In this study of American 19th-century secret orders, the author argues that religious practices and gender roles became increasingly feminized in Victorian America and that secret societies, such as the Freemasons, offered men and boys an alternative, male counterculture.

Masculinity in the Making

Managing the Transition to Manhood *Rowman & Littlefield Publishers*

Contemporary society has imposed a set of unrealistic and confusing rules for men over 18 to follow. With post-adolescent men experiencing lower rates of academic success at the post-secondary level and escalating rates of violence perpetrated by this age group, jobs, careers and life itself are in crisis. These men in transition have emotional, social, academic, and career struggles that affect every aspect of their lives. Masculinity in the Making: Managing the Transition to Manhood; therefore, will examine these issues and offer strategies and examples of what is possible for the post-adolescent male; more specifically, attention will be paid to theories and health issues specific to this population, social and cultural issues, academic and career interventions, aggression and violence, and media portrayals. The reader will be left with a deep and clear understanding of the needs of men as well as how mentoring and counseling can provide them with the support needed to be successful and productive members of society.

Is There Anything Good About Men?

How Cultures Flourish by Exploiting Men *Oxford University Press*

Have men really been engaged in a centuries-old conspiracy to exploit and oppress women? Have the essential differences between men and women really been erased? Have men now become unnecessary? Are they good for anything at all? In Is There Anything Good About Men?, Roy Baumeister offers provocative answers to these and many other questions about the current state of manhood in America. Baumeister argues that relations between men and women are now and have always been more cooperative than antagonistic, that men and women are different in basic ways, and that successful cultures capitalize on these differences to outperform rival cultures. Amongst our ancestors---as with many other species--only the alpha males were able to reproduce, leading them to take more risks and to exhibit more aggressive and protective behaviors than women, whose evolutionary strategies required a different set of behaviors. Whereas women favor and excel at one-to-one intimate relationships, men compete with one another and build larger organizations and social networks from which culture grows. But cultures in turn exploit men by insisting that their role is to achieve and produce, to provide for others, and if necessary to sacrifice themselves. Baumeister shows that while men have greatly benefited from the culture they have created, they have also suffered because of it. Men may dominate the upper echelons of business and politics, but far more men than women die in work-related accidents, are incarcerated, or are killed in battle--facts nearly always left out of current gender debates. Engagingly written, brilliantly argued, and based on evidence from a wide range of disciplines, Is There Anything Good About Men? offers a new and far more balanced view of gender relations.

Manhood Factories

YMCA Architecture and the Making of Modern Urban Culture *U of Minnesota Press*

Between the Civil War and the Great Depression, the Young Men's Christian Association built more than a thousand community centers across the United States and in major cities around the world. Dubbed "manhood factories" by Teddy Roosevelt, these iconic buildings served as athletic centers and residential facilities for a rapidly growing urban male population. In Manhood Factories, Paula Lupkin goes behind the reserved Beaux-Arts facades of typical YMCA buildings constructed in this period to understand the urban anxieties, moral agendas, and conceptions of masculinity that guided their design, construction, and use. She shows that YMCA patrons like J. P. Morgan, Cyrus McCormick Jr., and John Wanamaker hoped to create "Christian clubhouses" that would counteract the corrupting influences of the city. At first designed by leading American architects, including James Renwick Jr. and William Le Baron Jenney, and then standardized by the YMCA's own building bureau, YMCAs combined elements of men's clubs, department stores, hotels, and Sunday schools. Every aspect of the building process was informed by this mission, Lupkin argues, from raising funds, selecting the site and the architect, determining the exterior style, arranging and furnishing interior spaces, and representing the buildings in postcards and other printed materials. Beginning with the early history of the YMCA and the construction of New York City's landmark Twenty-third Street YMCA of 1869, Lupkin follows the efforts of YMCA leaders to shape a modern yet moral public culture and even define class, race, ethnicity, and gender through its buildings. Illustrated with many rarely seen photographs, maps, and drawings, Manhood Factories offers a fascinating new perspective on a venerable institution and its place in America's cultural and architectural history.

Manhood and the Making of the Military

Conscription, Military Service and Masculinity in Finland, 1917-39 *Ashgate Publishing, Ltd.*

The creation of Finland’s national conscription army in the wake of its independence from Russia in 1917 aroused intense but conflicting emotions. This book examines the struggles of a new army to find popular acceptance and support, and explores the ways that images of manhood were used in the controversies. Ahlbäck places the situation of interwar Finland within a broad European context to reveal the conflicts surrounding compulsory military service and the impact of the Great War on masculinities and constructions of gender.

The Rites of Men

Manhood, Politics, and the Culture of Sport *University of Toronto Press*

It gathers more spectators on a global basis than any other activity today. More than just a game, sport has profound political and social consequences, promoting a super-aggressive ideal of manhood and political culture.

Manliness and Civilization

A Cultural History of Gender and Race in the United States, 1880-1917 *University of Chicago Press*

When former heavyweight champion Jim Jeffries came out of retirement on the fourth of July, 1910 to fight current black heavyweight champion Jack Johnson in Reno, Nevada, he boasted that he was doing it "for the sole purpose of proving that a white man is better than a negro." Jeffries, though, was trounced. Whites everywhere rioted. The furor, Gail Bederman demonstrates, was part of two fundamental and volatile national obsessions: manhood and racial dominance. In turn-of-the-century America, cultural ideals of manhood changed profoundly, as Victorian notions of self-restrained, moral manliness were challenged by ideals of an aggressive, overtly sexualized masculinity. Bederman traces this shift in values and shows how it brought together two seemingly contradictory ideals: the unfettered virility of racially "primitive" men and the refined superiority of "civilized" white men. Focusing on the lives and works of four very different Americans—Theodore Roosevelt, educator G. Stanley Hall, Ida B. Wells, and Charlotte Perkins Gilman—she illuminates the ideological, cultural, and social interests these ideals came to serve.

Guyland *HarperCollins*

One of the most eminent scholars and writers on men and masculinity and the author of the critically acclaimed *Manhood in America* turns his attention to the culture of guys, aged 16 to 26: their attitudes, their relationships, their rules, and their rituals. “Kimmel is our seasoned guide into a world that, unless we are guys, we barely know exists. As he walks with us through dark territories, he points out the significant and reflects on its meaning.”—Mary Pipher, Ph.D., author of *Reviving Ophelia* The passage from adolescence to adulthood was once clear. Today, growing up has become more complex and confusing, as young men drift casually through college and beyond—hanging out, partying, playing with tech toys, watching sports. But beneath the appearance of a simple extended boyhood, a more dangerous social world has developed, far away from the traditional signposts and cultural signals that once helped boys navigate their way to manhood—a territory Michael Kimmel has identified as "Guyland." In mapping the troubling social world where men are now made, Kimmel offers a view into the minds and times of America's sons, brothers, and boyfriends, and he works toward redefining what it means to be a man today—and tomorrow. Only by understanding this world and this life stage can we enable young men to chart their own paths, stay true to themselves, and emerge safely from Guyland as responsible and fully formed male adults.

War and Gender

How Gender Shapes the War System and Vice Versa *Cambridge University Press*

Gender roles are nowhere more prominent than in war. Yet contentious debates, and the scattering of scholarship across academic disciplines, have obscured understanding of how gender affects war and vice versa. In this authoritative and lively review of our state of knowledge, Joshua Goldstein assesses the possible explanations for the near-total exclusion of women from combat forces, through history and across cultures. Topics covered include the history of women who did fight and fought well, the complex role of testosterone in men's social behaviours, and the construction of masculinity and femininity in the shadow of war. Goldstein concludes that killing in war does not come naturally for either gender, and that gender norms often shape men, women, and children to the needs of the war system. Illustrated with photographs, drawings, and graphics, and drawing from scholarship spanning six academic disciplines, this book provides a unique study of a fascinating issue.

Manhood and American Political Culture in the Cold War *Routledge*

Manhood and American Political Culture in the Cold War explores the meaning of anxiety as expressed through the political and cultural language of the early cold war era. Cuordileone shows how the preoccupation with the soft, malleable American character reflected not only anti-Communism but acute anxieties about manhood and sexuality. Reading major figures like Arthur Schlesinger Jr., Adlai Stevenson, Joseph McCarthy, Norman Mailer, JFK, and many lesser known public figures, Cuordileone reveals how the era’s cult of toughness shaped the political dynamics of the time and inspired a reinvention of the liberal as a cold warrior.

Manhood in America

A Cultural History *Oxford University Press, USA*

For more than three decades, the women's movement and its scholars have exhaustively studied women's complex history, roles, and struggles. In *Manhood in America: A Cultural History*, Fourth Edition, author Michael Kimmel argues that it is time for men to rediscover their own evolution. Drawing on a myriad of sources, he demonstrates that American men have been eternally frustrated by their efforts to keep up with constantly changing standards. Kimmel contends that men must follow the lead of the women's movement; it is only by mining their past for its best qualities and worst excesses that men will free themselves from the constraints of the masculine ideal.

‘Manufactured’ Masculinity

Making Imperial Manliness, Morality and Militarism *Routledge*

'Manufactured' Masculinity should be considered essential reading for scholars in the humanities and social sciences at every level and in all parts of the academic world. It weaves together brilliantly the elements of the 'manufacture' of masculinity in the period world-famous 'public' school system for the privileged which serviced the largest empire, the world has ever known, at the zenith of its control and which has had a significant influence in the formation of the modern world. This authoritative study of the making of British imperial masculinity shines light on the period of Muscular Christianity, Social Darwinism and Militarism as meshed ideological instruments of both power and persuasion. This magisterial study reveals the extraordinary and paramount influence of games fields as the 'machine tools' in an 'industrial process' with the schools as 'workshops' containing 'cultural conveyor-belts' for the production of robust, committed and confident servants of empire, and templates for imperial reproduction in imperial possessions. Mainly on efficient 'production belt' playing fields of the privileged minds were moulded, attitudes were constructed and bodies shaped - for imperial manhood. Earlier 'manliness' was metamorphosized, morality was redefined and militarism at the high point of imperial grandeur was an adjunct. Professor Mangan outlines this unique process of cultural conditioning with a unique range of evidence and analysis. This book was published as a special double issue of the International Journal of the History of Sport.

Creating Masculinity in Los Angeles's Little Manila

Working-Class Filipinos and Popular Culture, 1920s-1950s *Columbia University Press*

In this new work, Linda España-Maram analyzes the politics of popular culture in the lives of Filipino laborers in Los Angeles's Little Manila, from the 1920s to the 1940s. The Filipinos' participation in leisure activities, including the thrills of Chinatown's gambling dens, boxing matches, and the sensual pleasures of dancing with white women in taxi dance halls sent legislators, reformers, and police forces scurrying to contain public displays of Filipino virility. But as España-Maram argues, Filipino workers, by flaunting "improper" behavior, established niches of autonomy where they could defy racist attitudes and shape an immigrant identity based on youth, ethnicity, and notions of heterosexual masculinity within the confines of a working class. España-Maram takes this history one step further by examining the relationships among Filipinos and other Angelenos of color, including the Chinese, Mexican Americans, and African Americans. Drawing on oral histories and previously untapped archival records, España-Maram provides an innovative and engaging perspective on Filipino immigrant experiences.

Salvific Manhood

James Baldwin's Novelization of Male Intimacy *U of Nebraska Press*

Salvific Manhood foregrounds the radical power of male intimacy and vulnerability in surveying each of James Baldwin's six novels. Asserting that manhood and masculinity hold the potential for both tragedy and salvation, Ernest L. Gibson III highlights the complex and difficult emotional choices Baldwin's men must make within their varied lives, relationships, and experiences. In *Salvific Manhood*, Gibson offers a new and compelling way to understand the hidden connections between Baldwin's novels. Thematically daring and theoretically provocative, he presents a queering of salvation, a nuanced approach that views redemption through the lenses of gender and sexuality. Exploring how fraternal crises develop out of sociopolitical forces and conditions, *Salvific Manhood* theorizes a spatiality of manhood, where spaces in between men are erased through expressions of intimacy and love. Positioned at the intersections of literary criticism, queer studies, and male studies, Gibson deconstructs Baldwin's wrestling with familial love, American identity, suicide, art, incarceration, and memory by magnifying the potent idea of salvific manhood. Ultimately, *Salvific Manhood* calls for an alternate reading of Baldwin's novels, introducing new theories for understanding the intricacies of African American manhood and American identity, all within a space where the presence of tragedy can give way to the possibility of salvation.

The Man They Wanted Me to Be

Toxic Masculinity and a Crisis of Our Own Making *Catapult*

Based on the provocative and popular New York Times op-ed, this memoir alternates between the examination of a working-class upbringing and a cultural analysis of the historical, psychological, and sociological sources that make up the roots of toxic masculinity and its impact on society. As progressivism changes American society, and globalism shifts labor away from traditional manufacturing, the roles that have been prescribed to men since the Industrial Revolution have been rendered obsolete. Donald Trump's campaign successfully leveraged male resentment and entitlement, and now, with Trump as president and the rise of the #MeToo movement, it's clear that our current definitions of masculinity are outdated and even dangerous. Deeply personal and thoroughly researched, the author of *The People Are Going to Rise Like the Waters Upon Your Shore* has turned his keen eye to our current crisis of masculinity using his upbringing in rural Indiana to examine the personal and societal dangers of the patriarchy. *The Man They Wanted Me to Be* examines how we teach boys what's expected of men in America, and the long-term effects of that socialization—which

include depression, shorter lives, misogyny, and suicide. Sexton turns his keen eye to the establishment of the racist patriarchal structure which has favored white men, and investigates the personal and societal dangers of such outdated definitions of manhood. "By carefully and soberly examining his own story, Sexton deconstructs American life and gives many examples of how pervasive toxic masculinity is in our culture." —Henry Rollins, Los Angeles Times "This book is critically important to our historical moment . . . Crackles with intensity and absolutely refuses to allow the reader to look away for even a moment from the blight that toxic masculinity in America has wrought." —Nicholas Cannariato, NPR

Making Men

Sophists and Self-Presentation in Ancient Rome Princeton University Press

The careers of two popular second-century rhetorical virtuosos offer Maud Gleason fascinating insights into the ways ancient Romans constructed masculinity during a time marked by anxiety over manly deportment. Declamation was an exhilarating art form for the Greeks and bilingual Romans of the Second Sophistic movement, and its best practitioners would travel the empire performing in front of enraptured audiences. The mastery of rhetoric marked the transition to manhood for all aristocratic citizens and remained crucial to a man's social standing. In treating rhetoric as a process of self-presentation in a face-to-face society, Gleason analyzes the deportment and writings of the two Sophists--Favorinus, a eunuch, and Polemo, a man who met conventional gender expectations--to suggest the ways character and gender were perceived. Physiognomical texts of the era show how intently men scrutinized one another for minute signs of gender deviance in such features as gait, gesture, facial expression, and voice. Rhetoricians trained to develop these traits in a "masculine" fashion. Examining the successful career of Favorinus, whose high-pitched voice and florid presentation contrasted sharply with the traditionalist style of Polemo, Gleason shows, however, that ideal masculine behavior was not a monolithic abstraction. In a highly accessible study treating the semiotics of deportment and the medical, cultural, and moral issues surrounding rhetorical activity, she explores the possibilities of self-presentation in the search for recognition as a speaker and a man.

Fictions of Masculinity

Crossing Cultures, Crossing Sexualities NYU Press

We are just beginning to understand masculinity as a fiction or a localizable, historical, and therefore unstable construct. This book points the way to a much-needed interrogation of the many modes of masculinity, as represented in literature. Both women and men who are engaged in critical thinking about genders and sexualities will find these essays always thoughtful and often provocative. —Thas E. Morgan, Associate Professor of English, Arizona State University Peter Murphy has assembled an innovative, challenging, and important set of contributions to a growing field of inquiry into constructions of masculinities in literature, inspired principally by feminist and gay studies. Illuminatingly crossing lines of genders, sexualities, cultures, and methodologies, Fictions of Masculinity greatly advances our understanding of representations of men, masculinities, misandry, and misogyny in a wide range of literary works and genres, and helps us to imagine (and thereby ultimately bring about) alternative constructions. —Harry Brod, Editor, The Making of Masculinities: The New Men's Studies, A Mensch Among Men: Explorations in Jewish Masculinity, and Theorizing Masculinities. Women writing about women dominates contemporary work on sexuality. Men have been far more willing to discuss female sexuality than male sexuality, while the most radical and insightful analyses of male sexuality have come from women. When men consider the issue of female sexuality they often speak from assumptions of security about their own unexamined sexuality. This book maintains that men have to interrogate their own sexuality if there is to be a revision of phallocentric discourse; and, that this revision of masculinity must be done in dialogue with women. The essays included in this collection examine the deep structure of masculine codes. They ask the question Who are the men in modern literature? Examining the force of the dominant values of Western masculinity, they synthesize insights from feminism, psychoanalysis, post-structuralism, and new historicism. These perspectives help explain how male sexuality has been structured by fictional representations. By examining the images of masculinity in modern literature, the essays explore traditional and non-traditional roles of men in society and in personal relationships. They look at how men are represented in literature, the fiction of manhood. They attempt to unravel the assumptions behind these representations by looking at the implications of this imagination. And they speculate on possibilities for creating a new imaginary of masculinity by identifying what literature has to say about that change. With analyses of a range of genres (novels, poetry, plays and autobiography), Western and Third World literatures, and theoretical perspectives, Fictions of Masculinity provides a significant contribution to this rapidly growing field of study. Contributors are: David Bergman (Towson State University), Miriam Cooke (Duke University), Martin Danahy (Emory University), Richard Dellamora (Trent University, Ontario), Leonard Duroche (University of Minnesota), Jim Elledge (Illinois State University), Alfred Habegger (University of Kansas), Suzanne Kehde (California Polytechnic University, San Luis Obispo), David Leverenz (University of Florida), Christopher Metress (Wake Forest University), Peter F. Murphy (SUNY, Empire State College), Rafael Prez-Torres (University of Pennsylvania), David Radavich (Eastern Illinois University), and Peter Schwenger (St. Vincent University, Nova Scotia).

Carnival and Culture

Sex, Symbol, and Status in Spain Yale University Press

An exploration of the meanings of the Andalusian carnival, focusing in particular on the songs, or coplas. The author offers translations of many of these carnival productions, and contends that they are less about revolution or politics, than about the ambivalence of all human feeling.

Violent Manhood Rowman & Littlefield Publishers

This book will touch on all of the hot topic issues of masculinity and violence, including gun violence, sexual assault and the #MeToo movement,

violence against women, LGBT people, and people of color. Its unique approach will add to many conversations that should, as Sumerau explains, be focused on masculinity, and are far too often focused on something else. Taking the approach of talking with young college men who are privileged provides a unique look at how manhood and masculinity may not be progressing like many people hope and provides insights from all angles to critically examine the ways men construct and explain relationships between violence, manhood, and inequality in society.

Plato and the Hero

Courage, Manliness and the Impersonal Good Cambridge University Press

Examines Plato's critique of the notions and embodiments of manliness prevalent in his culture.

Before Chicano

Citizenship and the Making of Mexican American Manhood, 1848-1959 NYU Press

Uncovers the long history of how Latino manhood was integral to the formation of Latino identity In the first ever book-length study of Latino manhood before the Civil Rights Movement, Before Chicano examines Mexican American print culture to explore how conceptions of citizenship and manhood developed in the nineteenth and twentieth centuries. The year 1848 saw both the signing of the Treaty of Guadalupe Hidalgo that ended the U.S. Mexican War and the year of the Seneca Falls Convention, the first organized conference on women’s rights in the United States. These concurrent events signaled new ways of thinking about U.S. citizenship, and placing these historical moments into conversation with the archive of Mexican American print culture, Varon offers an expanded temporal frame for Mexican Americans as long-standing participants in U.S. national projects. Pulling from a wide-variety of familiar and lesser-known works—from fiction and newspapers to government documents, images, and travelogues—Varon illustrates how Mexican Americans during this period envisioned themselves as U.S. citizens through cultural depictions of manhood. Before Chicano reveals how manhood offered a strategy to disparate Latino communities across the nation to imagine themselves as a cohesive whole—as Mexican Americans—and as political agents in the U.S. Though the Civil Rights Movement is typically recognized as the origin point for the study of Latino culture, Varon pushes us to consider an intellectual history that far predates the late twentieth century, one that is both national and transnational. He expands our framework for imagining Latinos’ relationship to the U.S. and to a past that is often left behind.

Sovereignty

The Battle for the Hearts and Minds of Men

"Every man is born with just one thing: his sovereignty--his power to respond to his environment and his circumstances. Unfortunately, most men have spent much of their lives giving away that sovereignty. Every time a man passes blame or shirks his responsibility, every time he makes excuses for his performance, and every time he trades his unlimited potential for a little perceived safety and security, he willingly submits himself to the mercy of others. Is it any wonder that men, in general, seem to have lost their way? You don't have to look very far to recognize that men don't seem to possess the same amount of vigor and purpose they once did ... It's a call for men to become fully the men they are meant to be so they may more adequately take care of themselves and those they are responsible for. Men have always been expected to protect, provide, and preside over themselves, their families, their businesses, and their communities. By embodying the thirteen Sovereign Virtues we detail inside, every man will be more capable of fulfilling his masculine duties and responsibilities"--

Live and Die Like a Man

Gender Dynamics in Urban Egypt Stanford University Press

Watching the revolution of January 2011, the world saw Egyptians, men and women, come together to fight for freedom and social justice. These events gave renewed urgency to the fraught topic of gender in the Middle East. The role of women in public life, the meaning of manhood, and the future of gender inequalities are hotly debated by religious figures, government officials, activists, scholars, and ordinary citizens throughout Egypt. Live and Die Like a Man presents a unique twist on traditional understandings of gender and gender roles, shifting the attention to men and exploring how they are collectively "produced" as gendered subjects. It traces how masculinity is continuously maintained and reaffirmed by both men and women under changing socio-economic and political conditions. Over a period of nearly twenty years, Farha Ghannam lived and conducted research in al-Zawiya, a low-income neighborhood not far from Tahrir Square in northern Cairo. Detailing her daily encounters and ongoing interviews, she develops life stories that reveal the everyday practices and struggles of the neighborhood over the years. We meet Hiba and her husband as they celebrate the birth of their first son and begin to teach him how to become a man; Samer, a forty-year-old man trying to find a suitable wife; Abu Hosni, who struggled with different illnesses; and other local men and women who share their reactions to the uprising and the changing situation in Egypt. Against this backdrop of individual experiences, Ghannam develops the concept of masculine trajectories to account for the various paths men can take to embody social norms. In showing how men work to realize a "male ideal," she counters the prevalent dehumanizing stereotypes of Middle Eastern men all too frequently reproduced in media reports, and opens new spaces for rethinking patriarchal structures and their constraining effects on both men and women.

Cultures of Masculinity Routledge

Presenting a survey of the social, cultural and theoretical issues which surround and inform our understanding of masculinity, this book explores the

interface between traditional sociological approaches and the work covered by more post-structural, media-driven or cultural perspectives. Edwards well known for his work on representations of masculinities, uses grounded examples of the job market and domestic violence to set his theoretical discussion. He argues that there is a need for more dialogue on men and masculinities between disciplines, and considers the validity of the concerns and anxieties which surround masculinity in the contemporary world through a range of key topics, including: the new man, the new lad and ‘men’s movements’ men, masculinity and violence marginalized masculinities: black masculinity and gay male sexuality queer theory, performativity and fashion cinema, representation and the body. One of the most comprehensive and progressive studies of modern masculinity available, this book will be essential reading for students of gender, culture and sociology.

Monsters

Evil Beings, Mythical Beasts, and All Manner of Imaginary Terrors *University of Pennsylvania Press*

The human mind needs monsters. In every culture and in every epoch in human history, from ancient Egypt to modern Hollywood, imaginary beings have haunted dreams and fantasies, provoking in young and old shivers of delight, thrills of terror, and endless fascination. All known folklores brim with visions of looming and ferocious monsters, often in the role as adversaries to great heroes. But while heroes have been closely studied by mythologists, monsters have been neglected, even though they are equally important as pan-human symbols and reveal similar insights into ways the mind works. In *Monsters: Evil Beings, Mythical Beasts, and All Manner of Imaginary Terrors*, anthropologist David D. Gilmore explores what human traits monsters represent and why they are so ubiquitous in people's imaginations and share so many features across different cultures. Using colorful and absorbing evidence from virtually all times and places, *Monsters* is the first attempt by an anthropologist to delve into the mysterious, frightful abyss of mythical beasts and to interpret their role in the psyche and in society. After many hair-raising descriptions of monstrous beings in art, folktales, fantasy, literature, and community ritual, including such avatars as Dracula and Frankenstein, Hollywood ghouls, and extraterrestrials, Gilmore identifies many common denominators and proposes some novel interpretations. Monsters, according to Gilmore, are always enormous, man-eating, gratuitously violent, aggressive, sexually sadistic, and superhuman in power, combining our worst nightmares and our most urgent fantasies. We both abhor and worship our monsters: they are our gods as well as our demons. Gilmore argues that the immortal monster of the mind is a complex creation embodying virtually all of the inner conflicts that make us human. Far from being something alien, nonhuman, and outside us, our monsters are our deepest selves.

The Code of Man

Love Courage Pride Family Country *Harper Collins*

"In many ways," Waller R. Newell writes, "young men today are in deep spiritual trouble. But they are also yearning for a way back to the noblest ideals of American manhood." The Code of Man represents a deep and thought-provoking effort to help guide contemporary men back to those ideals, as embodied in what Newell calls the five paths to manliness: love, courage, pride, family, and country. At the dawn of the twenty-first century, he argues, we have grown so concerned about the roles of sex and violence in our society that we have forgotten the older virtues: romance and eros, courage and patriotism, the blend of love and bravery it takes to raise a family. In *The Code of Man*, he exhorts us to look to the traditional virtues of the past for inspiration. Contrasting the time-honored lessons of traditional voices -- Shakespeare and Abraham Lincoln, Jane Austen and Teddy Roosevelt -- with the chaotic signals emanating from sources like Eminem, video games like Thrill Kill, and Goth culture, Newell illustrates how we have come to associate courage with violence, "transgression" with wisdom. Most disturbing, he argues, the essential triumph of Western culture may have left us with a building reserve of untapped aggressive energy, and no consensus about how to channel it -- a situation that threatens to weaken us at the core. Seamlessly weaving together literary references from a diverse body of sources, Waller Newell offers an open-eyed look at what it means to be a man in America today, and a clarion call to recapture our traditions if we are to preserve our character as a society ... and avoid catastrophe.

Writing Manhood in Black and Yellow

Ralph Ellison, Frank Chin, and the Literary Politics of Identity *Stanford University Press*

This book is a comparative study of African American and Asian American representations of masculinity and race, focusing primarily on the major works of two influential figures, Ralph Ellison and Frank Chin.

Manhood and the American Renaissance *Cornell University Press*

In the view of David Leverenz, such nineteenth-century American male writers as Emerson, Hawthorne, Melville, Thoreau, and Whitman were influenced more profoundly by the popular model of the entrepreneurial "man of force" than they were by their literary precursors and contemporaries. Drawing on the insights of feminist theory, gender studies, psychoanalytical criticism, and social history, *Manhood and the American Renaissance* demonstrates that gender pressures and class conflicts played as critical a role in literary creation for the male writers of nineteenth-century America as they did for the women writers. Leverenz interprets male American authors in terms of three major ideologies of manhood linked to the social classes in the Northeast-patrician, artisan, and entrepreneurial. He asserts that the older ideologies of patrician gentility and of artisan independence were being challenged from 1820 to 1860 by the new middle-class ideology of competitive individualism. The male writers of the American Renaissance, patrician almost without exception in their backgrounds and self-expectations, were fascinated yet horrified by the aggressive materialism and the rivalry for dominance they witnessed in the undeferential "new men." In close readings of the works both of well-known male

literary figures and of then popular authors such as Richard Henry Dana, Jr., and Francis Parkman, Leverenz discovers a repressed center of manhood beset by fears of humiliation and masochistic fantasies. He discerns different patterns in the works of Whitman, with his artisan's background, and Frederick Douglass, who rose from artisan freedom to entrepreneurial power. Emphasizing the interplay of class and gender, Leverenz also considers how women viewed manhood. He concludes that male writers portrayed manhood as a rivalry for dominance, but contemporary female writers saw it as patriarchy. Two chapters contrast the work of the genteel writers Sarah Hale and Caroline Kirkland with the evangelical works of Susan Warner and Harriet Beecher Stowe. A bold and imaginative work, *Manhood and the American Renaissance* will enlighten and inspire controversy among all students of American literature, nineteenth-century American history, and the relation of gender and literature.

Conjuring Freedom

Music and Masculinity in the Civil War's "Gospel Army"

Conjuring Freedom: Music and Masculinity in the Civil War's "Gospel Army" analyzes the songs of the 1st South Carolina Volunteers, a regiment of Black soldiers who met nightly in the performance of the ring shout. In this study, acknowledging the importance of conjure as a religious, political, and epistemological practice, Johari Jabir demonstrates how the musical performance allowed troop members to embody new identities in relation to national citizenship, militarism, and masculinity in more inclusive ways. Jabir also establishes how these musical practices of the regiment persisted long after the Civil War in Black culture, resisting, for instance, the paternalism and co-optive state antiracism of the film *Glory*, and the assumption that Blacks need to be deracinated to be full citizens. Reflecting the structure of the ring shout--the counterclockwise song, dance, drum, and story in African American history and culture--*Conjuring Freedom* offers three new concepts to cultural studies in order to describe the practices, techniques, and implications of the troop's performance: (1) Black Communal Conservatories, borrowing from Robert Farris Thompson's "invisible academies" to describe the structural but spontaneous quality of black music-making, (2) Listening Hermeneutics, which accounts for the generative and material affects of sound on meaning-making, and (3) Sonic Politics, which points to the political implications of music's use in contemporary representations of race and history.

The Making of Manhood Among Swedish Missionaries in China and Mongolia, C. 1890-c. 1914 *BRILL*

Over the last thirty years, issues of gender have been creatively explored within the field of mission studies. Whereas the life and work of female missionaries have been fruitfully reflected upon, male gender identity has often been understood as an unchanging category. This book offers a pioneering account of the relationship between missionary work and masculinity. By examining four individual men this study explores how self-making occurred within foreign missions, but also how conceptions of male gender informed missionary work. Changes that occurred in the lives of these men are placed within the broader context of how issues of gender were renegotiated within the contemporary missionary movement.

The Will to Change

Men, Masculinity, and Love *Simon and Schuster*

Everyone needs to love and be loved—even men. But to know love, men must be able to look at the ways that patriarchal culture keeps them from knowing themselves, from being in touch with their feelings, from loving. In *The Will to Change*, bell hooks gets to the heart of the matter and shows men how to express the emotions that are a fundamental part of who they are—whatever their age, marital status, ethnicity, or sexual orientation. But toxic masculinity punishes those fundamental emotions, and it’s so deeply ingrained in our society that it’s hard for men to not comply—but hooks wants to help change that. With trademark candor and fierce intelligence, hooks addresses the most common concerns of men, such as fear of intimacy and loss of their patriarchal place in society, in new and challenging ways. She believes men can find the way to spiritual unity by getting back in touch with the emotionally open part of themselves—and lay claim to the rich and rewarding inner lives that have historically been the exclusive province of women. A brave and astonishing work, *The Will to Change* is designed to help men reclaim the best part of themselves.

The Routledge Companion to Masculinity in American Literature and Culture *Routledge*

Recently, the U.S. has seen a rise in misogynistic and race-based violence perpetrated by men expressing a sense of grievance, from "incels" to alt-right activists. Grounding sociological, historical, political, and economic analyses of masculinity through the lens of cultural narratives in many forms and expressions, *The Routledge Companion to Masculinity in American Literature and Culture* suggests that how we examine the stories that shape us in turn shapes our understanding of our current reality and gives us language for imagining better futures. Masculinity is more than a description of traits associated with particular performances of gender. It is more than a study of gender and social power. It is an examination of the ways in which gender affects our capacity to engage ethically with each other in complex human societies. This volume offers essays from a range of established, global experts in American masculinity as well as new and upcoming scholars in order to explore not just what masculinity once meant, has come to mean, and may mean in the future in the U.S.; it also articulates what is at stake with our conceptions of masculinity.

Men and Masculinities

A Social, Cultural, and Historical Encyclopedia *ABC-CLIO*

Alphabetically arranged original essays explore such topics as historical movements, race and masculinity, marriage, and aging.

Past Imperfect

French Intellectuals, 1944-1956 *Univ of California Press*

The uniquely prominent role of French intellectuals in European cultural and political life following World War II is the focus of Tony Judt's newest book. He analyzes this intellectual community's most divisive conflicts: how to respond to the promise and the betrayal of Communism and how to sustain a commitment to radical ideals when confronting the hypocrisy in Stalin's Soviet Union, in the new Eastern European Communist states, and in France itself. Judt shows why this was an all-consuming moral dilemma to a generation of French men and women, how their responses were conditioned by war and occupation, and how post-war political choices have come to sit uneasily on the conscience of later generations of French intellectuals. Judt's analysis extends beyond the writings of fashionable "Existentialist" personalities such as Jean-Paul Sartre, Albert Camus, and Simone de Beauvoir to include a wide intellectual community of Catholic philosophers, non-aligned journalists, literary critics and poets, Communist and non-Communist alike. Judt treats the intellectual dilemmas of the postwar years as an unfinished history. French intellectuals have not fully come to terms with the gnawing sense of what Judt calls the "moral irresponsibility" of those years. The result, he suggests, is a legacy of bad faith and confusion that has damaged France's cultural standing, notably in newly liberated Eastern Europe, and which reflects the nation's larger difficulty in confronting its own ambivalent past.

Nine Centuries of Man

Manhood and Masculinities in Scottish History *Edinburgh University Press*

What did it mean to be a man in Scotland over the past nine centuries?Scotland, with its stereotypes of the kilted warrior and the industrial ahard man has long been characterised in masculine terms, but there has been little historical exploration of what masculinity actually means for men (and women) in a Scottish context. This interdisciplinary collection explores a diverse range of the multiple and changing forms of masculinities from the late eleventh to the late twentieth century, examining the ways in which Scottish society through the ages defined expectations for men and their behaviour.How men reacted to those expectations is examined through sources such as documentary materials, medieval seals, romance, poetry, begging letters, police reports and court records, charity records, oral histories and personal correspondence. Focusing upon the wide range of activities and roles undertaken by men a work, fatherhood and play, violence and war, sex and commerce a the book also illustrates the range of masculinities which affected or were internalised by men. Together, they illustrate some of the ways Scotlands gender expectations have changed

over the centuries and how more generally masculinities have informed the path of Scottish history.ContributorsLynn Abrams, University of GlasgowKatie Barclay, University of AdelaideAngela Bartiem University of EdinburghRosalind Carr, University of East LondonTanya Cheadle, University of GlasgowHarriet Cornell, University of EdinburghSarah Dunnigan, University of EdinburghElizabeth Ewan, University of GuelphAlistair Fraser, University of GlasgowSergi Mainer, University of EdinburghJeffrey Meek, University of GlasgowCynthia J. The Art of Being Human *Createspace Independent Publishing Platform*

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

The Meanings of Macho

Being a Man in Mexico City *Univ of California Press*

Praise for the first edition: "Gutmann has done the hithertofore seemingly unthinkable. [A] wholly other vision of Mexican gender relations emerges."—José Limón, American Anthropologist "This book does for the study of men what two generations of feminist anthropologists have done for the study of women."—Lynn Stephen, author of Zapotec Women
