Religion and the Specter of the West on Apple Books

This is a study of the ways in which animals have been viewed in the Buddhist and Christian religious traditions. The concept of speciesism is used to explore basic questions about which animals, human or otherwise, were significant to early Buddhists and Christians. The volume also seeks to establish a general method of assessing religious traditions' relationship to cultures' and believers' views of the living beings outside the human species.

Mandair rethinks the intersection of religion and the secular in discourses such as history of religions, postcolonial theory, and recent continental philosophy. Though seemingly unconnected, these discourses are shown to be linked to a philosophy of "generalized translation" that emerged as a key conceptual matrix in the colonial encounter between India and the West.
