Learning & the Brain

We need all of our emotions for thinking,

problem solving, and focused attention. We are neurobiologically wired, and to learn anything, our minds must be focused and our emotions need to "feel" in balance. Emotional regulation is necessary so that we can remember, retrieve, transfer, and connect all new information to what we already know. When a continuous stream of negative emotions hijacks our frontal lobes, our brain's architecture changes, leaving us in a heightened stress-response ...
