Advanced Grammar in Use: a Self-study Reference and Practice Book for Advanced Learners Of English

Advanced Grammar in a Nutshell

Advanced English in a Nutshell is a short, detail free book that sheds light on the highlights and major grammatical points in a clear and effective manner. Getting lost in the endless variations of grammatical rules can be extremely distracting and most of the time disappointing. For this purpose, the book is not designed to dig deep into the limitless details of grammatical rules rather it is a kind of a review to the most necessary forms and structures that students need to use in academic tests in order to get high scores. In all tests candidates' performance is assessed according to the type of grammatical structures they are using while they are speaking or writing. The candidate who sticks to present simple and continuous forms, for instance, is not expected to get a high score in terms of structure because of the use of simple grammatical forms. Thus, it does make sense for candidates to use a variety of complex and simple structures to give the impression that they have a good mastery and command of the language.

Grammar and Context *Psychology Press*

Korean Grammar in Use - Beginning (English ver.) (Darakwon)

This book is the culmination of educational know-how and systematic grammar organization acquired by the three authors from their experience actually teaching Korean to foreigners in the classroom. In focusing strictly on Korean grammar, this series represents a departure from most current integrated teaching materials, allowing foreign learners to more easily concentrate on grammar in their study of Korean. The authors have included real dialogues and illustrations to make the study of Korean more

interesting, especially for those students who have heretofore felt Korean grammar to be difficult. Further, this series equally serves as a general Korean grammar reference that can be used by Korean language instructors both in Korea and abroad who regularly experience the difficulty of teaching Korean grammar first-hand. **MP3(CD)** www.darakwon.co.kr **TOPIK 1~2** **Contents** Preface How to Use This Book Table of Contents ■ Introduction to the Korean Language 1.
