First to Care

125 Years of the Order of St John

New Zealand, 1885-2010 *Oratia Media Ltd*

FIRST TO CARE: 125 YEARS OF THE ORDER OF ST JOHN IN NEW ZEALAND, 1885-2010 brings to life the history of one of our most ubiquitous and vital charitable organisations. The heavily illustrated book provides a vivid account of public-spiritedness, enterprise and innovation by people involved in St John over the past 125 years, peppered with occasional disputes and setbacks along the way. St John invented and popularised 'first aid' as we know it. It provided medical assistance from the sidelines of our sports fields from as early as 1891 and it played a leading role in disaster relief from its formative days. From humble beginnings it established a nationwide ambulance

service that today is the envy of the St John fraternity worldwide.

Build It

The Rebel Playbook for World-Class Employee Engagement *John Wiley & Sons*

The current way of treating people at work has failed. Globally, only 30% of employees are engaged in their jobs, and in this fast-paced world that's just not enough. The world's best companies understand this, and have been quietly treating people differently for nearly two

decades. Now you can learn their secrets and discover The Engagement Bridge™ model, proven to build bottom line value for companies through sustainable employee engagement. Companies with the best cultures generate stock market returns of twice the general market and enjoy half the employee turnover of their peers. Their staff innovate more, deliver better customer service and, hands-down, beat the competition. These companies outperform and disrupt their markets. They break the rules of traditional HR, they rebel against the status quo. Build it has found these rebels and the rulebreakers. From small startups to global powerhouses, this book shows that courage, commitment, and a people-centric mindset, rather than money and resources, are what you

need to turn an average business into a category leader. The book follows the clear and proven Engagement Bridge™ model, developed from working with thousands of leading companies worldwide on their own employee engagement journeys. The practical model highlights the areas that leaders need to examine in order to build a highly engaged company culture and provides a framework for success. Build it is packed with tips, tools and real-life examples from employers including NASDAQ, Unilever, IBM, KPMG, 3M, and McDonald's to help you start doing this not tomorrow, but today. Readers will learn: How employee engagement helps companies perform The key factors that drive engagement, and how they work together What the world's most

rebellious companies have done to break the rules of traditional HR and improve engagement. How to implement The Engagement Bridge™ model to boost productivity, innovation, and better decision-making. Unique in this category, Build it is written from two sharply different perspectives. Glenn Elliott is a multi-award winning Entrepreneur of the Year, CEO and growth investor. He talks candidly about the mistakes and missteps he has made whilst building Reward Gateway into a \$300m category leader in employee engagement technology. Debra Corey brings 30 years experience in senior level HR roles at global companies such as Gap, Quintiles, Honeywell and Merlin Entertainments. She shares the practical tools and case studies that can kickstart your employee

engagement plan, bringing her own pragmatic and engaging style to each situation.
