The Physiology Of Truth Neuroscience

In The Physiology of Truth, a translation of his L'Homme de vérité, Jean-Pierre Changeux provides an account whereby selection among an initial plethora of possibilities yields those that are true, a process evident both in brain development and in knowledge acquisition. Along the way, he espouses a hopeful naturalism: evolution ensures that our nervous systems aim at representing the truth, and aspects of our culture--notably freedom, communication, and pursuit of the scientific method ...
