Each chapter is organized into a few sections. The first part of every chapter gives you an overview of the topics covered in that chapter. Next is a series of exercises designed to prepare you for the Certified User exam. After that is a series of exercises designed to prepare you for the Certified Professional exam. Finally, every chapter concludes with two quizzes, modeled around the two exams, to test your knowledge of the information covered in that chapter. The competition for jobs is steep, and employers can afford to be picky.
