Linux Malware Incident Response - SearchSecurity
Description: Older (non-proprietary) versions of the Helix Incident Response CD-ROM include an automated live response script (linux-ir.sh) for gathering volatile data from a compromised system. linux-ir.sh sequentially invokes over 120 statically compiled binaries (that do not reference libraries on the subject system). The script has several shortcomings, including gathering limited information about running processes and taking full directory listings of the entire system.
