Criminal Evidence

Principles, Cases and Readings

Criminal Law Cengage Learning

Equipping you with a practical understanding of legal topics, Gardner and Anderson's CRIMINAL LAW, 12th Edition, delivers comprehensive coverage of the major components of substantive criminal law in a remarkably reader-friendly presentation. Its narrative, descriptive approach exposes readers to the language of the law without overwhelming them. A longtime market leader, the book offers complete coverage of the issues and principles that drive American criminal justice today. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Criminal Evidence Routledge

In addition to covering the basics of collecting, preserving and presenting evidence, Criminal Evidence, 12th edition, presents the latest developments in the law of evidence that are of interest to criminal justice personnel. Highlights include: chapter outlines, lists of key terms and concepts for each chapter, a glossary, and new, up-to-date cases in Part II. Thoroughly revised, updated, and streamlined to include recent case law on evidence Each chapter includes outlines, key terms and concepts, and review questions to aid understanding Appendices include a helpful glossary; Federal Rules of Evidence as amended and effective through December 1, 2013; Table of Jurisdictions That Have Adopted Some System of Uniform Rules for Regulating the Admission and Exclusion of Evidence through 2014; and Table of Contents of the Uniform Rules of Evidence with 2005 Amendments

Principles of Evidence in International Criminal Justice Oxford University Press, USA

Principles of Evidence in International Criminal Justice provides an overview of the procedure and practice concerning the admission and evaluation of evidence before the international criminal tribunals. The book is both descriptive and critical and its emphasis is on day-to-day practice, drawing on the experience of the Yugoslavia, Rwanda and Sierra Leone Tribunals. This book is an attempt to define and explain the core principles and rules that have developed at those ad hoc Tribunals; the rationale and origin of those rules; and to assess the suitability of those rules in the particular context of the International Criminal Court which is still at its early stages. The ICC differs in structure from the ad hoc Tribunals and approaches the legal issues it has to resolve differently from its predecessors. The ICC is however confronted with many of the same questions. The book examines the differences between the ad hoc Tribunals and the ICC and seeks to offer insights as to how and in which circumstances the principles established over years of practice at the ICTY, ICTR and SCSL may serve as guidance to the ICC practitioners of today and the future. The contributors represent a cross-section of the practicing international criminal bar, drawn from the ranks of the Bench, the Prosecution and the Defence and bringing with them different legal domestic cultures. Their mixed background underlines the recurring theme in this book which is the manner in which a legal culture has gradually taken shape in the international Tribunals, drawing on the various traditions and experiences of its participants.

Criminal Evidence Oxford University Press

Based on Adrian Zuckerman's 'The Principles of Criminal Evidence', this book presents a comprehensive treatment of the fundamental principles & underlying logic of the law of criminal evidence. It includes changes relating to presumption of innocence, privilege against self-incrimination, character, & the law of corroboration.

Criminal Evidence Cengage Learning

Practical and reader-friendly, the Seventh Edition of CRIMINAL EVIDENCE continues to offer students comprehensive, up-to-date coverage of all evidentiary topics common in criminal proceedings in a brief, affordable format. The text thoroughly explores Constitutional issues essential to the collection and seizure of admissible evidence and legal interrogation, carefully outlining concepts and processes applicable to every state and pointing out where great interstate variation exists or specific state codes may have a strong impact. The text also covers current trends and topics that students will likely encounter in the real world, such as terrorism and homeland security, scientific evidence, Federal Rules of Evidence, hearsay, and the appellate system. Realistic case scenarios prepare students to apply their knowledge and skills in the real world as working law enforcement professionals. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Internationalisation of Criminal Evidence

Beyond the Common Law and Civil Law Traditions Cambridge University Press

An examination of international attempts to develop common principles for regulating criminal evidence across different legal traditions.

Introduction to Criminal Investigation *CRC Press*

The manner in which criminal investigators are trained is neither uniform nor consistent, ranging from sophisticated training protocols in some departments to on-the-job experience alongside senior investigators in others. Ideal for students taking a first course in the subject as well as professionals in need of a refresher, *Introduction to Crimin*

Principles of Chinese Criminal Procedure *Bloomsbury Publishing*

This book presents a short history and timeline of criminal procedure legislation in China. First, it addresses the status of Human Rights Conventions and the challenges resulting from human rights standards for Chinese criminal procedural law and practice. The discussion then moves on to explore the fundamentals of Chinese criminal procedure such as the applicable law found in the Chinese CPL (Criminal Procedure Law) and legal institutions. The book covers relevant actors in the Chinese Criminal Justice System (ie judges, prosecutors, police, defence councils) as well as the relationships between them. It also includes topics relating to the victims of crime and their role in criminal proceedings. Starting with pre-trial investigations (extending in particular to coercive measures and discretionary powers in the implementation of non-prosecution policies) the book continues as a guide through the basic principles of criminal trial, standards of evidence and rules related to conviction. Appeals and the issue of reopening criminal proceedings are also considered, with the book making particular reference to a number of special procedures (including juvenile delinquency) in the closing chapter.

The Law of Criminal and Civil Evidence

Principles and Practice *Pearson Education*

The text develops the readers' understanding of the law of evidence in both a practical and an academic way by examining and analysing the law in the context of the adversarial and managed systems of criminal and civil justice. This book takes a different approach by formally recognising the operation of the different evidential principles between criminal and civil cases; including a detailed section on the law of civil evidence; recognising that the study of evidence should reflect the practical context in which the rules operate; anticipating important proposed legislative changes in the law of evidence and by recognising the impact of the implementation of the Human Rights Act 1998 on the law of evidence.

Evidence *Oxford University Press*

Choo's *Evidence* provides students with a lucid account of the core principles of the law of civil and criminal evidence in England and Wales, whilst also exploring the fundamental rationales that underlie the law as a whole. This clear and engaging text explores current debates and draws on different jurisdictions to achieve a fascinating mix of critical and thought-provoking analysis for

students and practitioners alike. Where appropriate the author draws on comparative material and a variety of socio-legal, empirical, and non-legal material. Also, thorough footnoting and further reading lists provide valuable signposting to a wealth of additional sources.

Principles, Procedure, and Justice

Essays in Honour of Adrian Zuckerman *Oxford University Press, USA*

This collection is in honour of Adrian Zuckerman, Emeritus Professor of Civil Procedure at the University of Oxford. Bringing together a distinguished group of judges and academics to reflect on the impact of his work on our understanding of civil procedure and evidence today. An internationally renowned scholar, Professor Zuckerman has dedicated his professional life to the law of evidence and civil procedure, drawing attention to the principles and policies that shape litigation practice and their wider social impact. His pioneering scholarship is admired by the judiciary and the academy and has influenced several major reforms of the civil justice system including the Woolf Reforms that heralded the introduction of the Civil Procedure Rules, and Lord Justice Jackson's Review of Civil Litigation Costs. His work has also informed law reform bodies and courts in other jurisdictions. Building upon Professor Zuckerman's work, the contributors address outstanding problems in the field of civil procedure and evidence, and the collection includes a final, forward-looking chapter examining the challenges ahead.

Principles of Evidence *West Group*

This comparatively short, readable treatise is written especially for students. First published in 1978, this text examines all topics typically covered in a three-or four-hour course in evidence. Emphasis is on the Federal Rules of Evidence, now adopted in most states. Should the reader desire additional material, ample footnotes provide easy access to leading cases, articles, and standard reference works. The Fifth Edition contains an in-depth treatment of the important amendments to the Federal Rules of Evidence, including the most recent addition of Rule 502.

The Impact of Scientific Evidence on the Criminal Trial

The Case of DNA Evidence *Routledge*

This book explores challenges posed by the use of DNA evidence to the traditional features, procedures and principles of the criminal trial. It examines the limitations of existing theories of criminal trial processes in the face of increasing use of scientific evidence in the court room. The research elucidates the interconnections at trial of three epistemologies, namely legal reasoning, as represented by counsel and trial judge, common sense manifested by the jury and scientific reasoning expounded by the expert witness. Sallavaci argues that while scientific reasoning is part of this hybrid of trial languages and practices, its extended use is producing specifically novel tensions which impact on the traditional criminal trial landscape. Through the lens of DNA evidence, the book investigates how far the use of scientific evidence in the fact finding process poses challenges for the adversarial character of the proceedings and rules of evidence; how it affects the

role of the judge, jury and expert witness, as well as the principle of orality and continuity of the trial. In comparing the challenges faced in English common law trials to those of the USA, this book has international scope, and will be of great use and interest to students and researchers of Criminal Law and Practice, Policing, and the role of Forensics in Law.

Principles of Evidence in Criminal Cases

Criminal Law *Cengage Learning*

A highly accessible, student-friendly text, Gardner and Anderson's CRIMINAL LAW is ideal for instructors who prefer not to assign lengthy case excerpts and prefer a more prescriptive approach to teaching criminal law. The text exposes students to the language of criminal law without overwhelming them and provides comprehensive coverage of all the major components of substantive criminal law. The text's excellent coverage of current issues, accessible writing style, and numerous pedagogical aids help students understand complex legal topics more so than any other text on the market. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Criminal Evidence and Procedure

The Statutory Framework *Gaunt*

Anyone practising in the criminal court needs to have a sound grasp of both evidence and procedure. This book provides the criminal lawyer with access to the key points of these inter-related subjects in a single volume. It is divided into two parts: Part A deals with evidence, while Part B covers procedure. It provides the text of the most important statutory provisions, together with a concise commentary. The procedural and evidential provisions of the Criminal Justice and Public Order Act 1994 are placed in context, and there are extensive excerpts from the revised 1995 version of the codes of practice issued under PACE. The Criminal Appeal Act 1995 is also dealt with in full.

Significant Cases in Criminal Procedure *Criminal Justice Case Briefs*

Easily accessible to undergraduates, Significant Cases in Criminal Procedure, Second Edition, offers a clear, comprehensive introduction to criminal procedure. Rather than providing complete opinions, which may overwhelm students, the authors present case briefs, along with analyses, explanations, and short excerpts. In addition to the case summaries, the book includes lists of all of the cases it covers, both in alphabetical order and grouped by topic; a short introduction to each topic; and an index. CRIMINAL JUSTICE CASE BRIEFS SERIES Significant Cases in Criminal Procedure, Second Edition Craig Hemmens, Alan Thompson, and Lisa S. Nored (978-0-19-995791-0) Significant Cases in Corrections, Second Edition Craig Hemmens, Barbara Belbot, and Katherine Bennett (978-0-19-994858-1) Significant Cases in Juvenile Justice, Second Edition Craig Hemmens, Benjamin Steiner, and David Mueller (978-0-19-995841-2)

Analysis of Evidence *Cambridge University Press*

This extensively revised second edition is a rigorous introduction to the construction and criticism of arguments about questions of fact, and to the marshalling and evaluation of evidence at all stages of litigation. It covers the principles underlying the logic of proof; the uses and dangers of story-telling; standards for decision and the relationship between probabilities and proof; the chart method and other methods of analyzing and ordering evidence in fact-investigation, in preparing for trial, and in connection with other important decisions in legal processes and in criminal investigation and intelligence analysis. Most of the chapters in this new edition have been rewritten; the treatment of fact investigation, probabilities and narrative has been extended; and new examples and exercises have been added. Designed as a flexible tool for undergraduate and postgraduate courses on evidence and proof, students, practitioners and teachers alike will find this book challenging but rewarding.

General Principles of Criminal Law *The Lawbook Exchange, Ltd.*

Hall, Jerome. General Principles of Criminal Law. Second Edition. Indianapolis: The Bobbs Merrill Company, [1960]. xii, 642 pp. Reprint available January, 2005 by the Lawbook Exchange, Ltd. ISBN 1-58477-498-3. Cloth. \$125. * The standard one-volume treatise based on classic legal-realist principles. As its title suggests, Hall provides more than a thorough overview of the subject; he analyzes the principles that comprise its foundations with an emphasis on their creation and definition by officials. This process is explored in its chapters on legality, mens rea, harm, causation, punishment, strict liability, ignorance and mistake, necessity and coercion, mental disease, intoxication and criminal attempt, as well as its general chapters on criminology, criminal theory and penal theory. Acclaimed when its first edition appeared in 1947, it has been cited regularly ever since.

Criminal Evidence *McGraw-Hill Humanities, Social Sciences & World Languages*

This practical text for students in career-oriented law enforcement programs has been thoroughly updated and carefully revised for improved clarity and comprehension. Relevant court decisions are discussed to the extent necessary to illustrate the rules explained.

Law of Evidence *Cambridge University Press*

Combining straightforward explanation with scholarly analysis, Law of Evidence introduces students to the full range of topics covered in law of evidence courses, with clarity and depth. Highlighting the context within which the law operates, the textbook maintains an engaging narrative with a strong practical focus. Integrated extracts from key judgments and statutes, as well as academic articles and books, lead students to develop a deeper understanding of the subject, and detailed commentary on these extracts helps students develop the ability to read and analyse case law effectively. Student learning is further supported by numerous visual aids, including diagrams, flowcharts and tables, which illustrate the relationships between principles and provisions and clarify the complex aspects of the law. A companion website with regular updates to the text ensures that students always have the most up-to-date coverage of the law at their fingertips.

Principles of Evidence *Law Book Company for New South Wales Bar Association*

Contemporary Criminal Law

Concepts, Cases, and Controversies *SAGE*

This is a comprehensive, introductory criminal law textbook that expands upon traditional concepts and cases by coverage of the most contemporary topics and issues. Contemporary material, including terrorism, computer crimes, and hate crimes, serves to illuminate the ever-evolving relationship between criminal law, society and the criminal justice system's role in balancing competing interests. The case method is used throughout the book as an effective and creative learning tool. Features include: vignettes, core concepts, 'Cases and Concepts', 'You Decides', excerpts from state statutes, 'legal equations' and Crime in the News boxes" fully developed end-of-chapter pedagogy includes review questions, legal terminology and 'Criminal Law on the Web' resources" instructor resources (including PowerPoint slides, a computerized testbank and classroom activities) and a Student Study Site accompany this text

Criminal Evidence *Cengage Learning*

With an emphasis on real-world applications, CRIMINAL EVIDENCE, Eighth Edition, provides readers with comprehensive, up-to-date coverage of common evidentiary topics in a brief, affordable format. This book thoroughly explores constitutional issues essential to the collection and seizure of admissible evidence and legal interrogation, carefully outlining concepts and processes applicable to every state and pointing out where great interstate variation exists or specific state codes may have a strong impact. Current trends and topics discussed include terrorism and homeland security, scientific evidence, Federal Rules of Evidence, hearsay, and the appellate system. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Criminal Law, Procedure, and Evidence *CRC Press*

Constitutional principles are the foundation upon which substantive criminal law, criminal procedure law, and evidence laws rely. The concepts of due process, legality, specificity, notice, equality, and fairness are intrinsic to these three disciplines, and a firm understanding of their implications is necessary for a thorough comprehension of the

Model Rules of Professional Conduct *American Bar Association*

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those

instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Evidence in Criminal Trials *Bloomsbury Professional*

The law of evidence comprises the rules which govern the presentation of facts and proof in proceedings before a court. It is a subject of enormous importance to both practitioners and students. The principal objective of Evidence in Criminal Trials, 2nd edn, is to update the analysis of Irish law and policy on criminal evidence. Given its nature, the law of evidence is constantly evolving and, in particular, is actively developed by the courts and occasionally the legislature. In the five years since the first edition was published, judicial decisions have been handed down in each of areas covered in the book. This is particularly true of the broad field of Testimony (chapters 2 to 6) and the area of Pre-Trial Interviews with Suspects (chapter 9). Aside from updating the text in this general sense, the second edition will examine a number of landmark developments that have occurred over the past four years. In DPP v JC (2015) IESC 31, the Supreme Court delivered a groundbreaking decision effectively re-writing the law on unlawfully obtained evidence by relaxing the strict exclusionary rule that had been applied by the courts for the previous fifty years. The revised exclusionary rule has been applied in a number of recent cases. In 2017, the Oireachtas substantially amended the legislative regime of special measures for vulnerable witnesses. The Criminal Justice (Victims of Crime) Act 2017, which transposed the EU Victims' Rights Directive, has extended these measures in principle to crime victims who are at risk of secondary victimisation. It has also enhanced the range of existing measures for children and persons with certain intellectual disabilities who give evidence in trials for violent and/or sexual offences. The combined effect is a substantial amendment of Part 3 of the Criminal Evidence Act 1992. Both the Victims of Crime Act and the Criminal Law (Sexual Offences) Act 2017 have introduced important changes relating to the evidence of complainants in trials for sexual offences. This area of trial practice has been the subject of controversy and various proposals for policy reform have been put forward. In 2016, the Law Reform Commission published its long-awaited Report on Consolidation and Reform of Aspects of the Law of Evidence. The very length report includes recommendations in the areas of expert evidence and the law on hearsay (two significant chapters within the book). It also examines the law relating to documentary evidence and makes proposals for the consolidation of evidence legislation. The second edition will contain a new chapter on the subject of European Criminal Evidence. The central focus is on the Mutual Legal Assistance Act 2008 which provides the framework for the taking of evidence located abroad. It also analyses various measures adopted under the auspices of the EU including the EU Directives on the Right of Access to a Lawyer, and on European Investigation Orders (which Ireland has not opted into). The current European Commission proposal for an instrument on European Preservation and Production Orders in relation to electronic evidence is also discussed. Includes references to the relevant case law of the European Court of Human Rights throughout the book. In addition, new material is added to existing chapters. For example, the discussion of the burdens and standards of proof will be extended (chapter 1) and the analysis of privilege (chapter 12). Similarly, the law on the admissibility of mixed statements will be included in the account of pre-trial interviews with suspects (chapter 9). The analysis of DNA evidence will be

revised (chapter 10) by condensing some of the older material on point and including a review of the recent Supreme Court decision in *DPP v Wilson* (2017) IESC 54.

Scientific Evidence in Civil and Criminal Cases

This popular casebook is designed to provide those participating in trials with a concise understanding of the scope of the most commonly encountered types of expert testimony, and the nature of the results which may be expected from specialists. It explores both the potentialities and limitations of various types of expert proof. It considers qualifications needed for expertise in these various professional disciplines and discusses the status of the law concerning the various types of evidence encountered. The book first deals with the general concepts underlying expert opinion testimony, with the use of real and demonstrative evidence, and with opinion testimony of non-

expert skilled witnesses. It then turns in succession to expert testimony based upon the physical sciences, and expert witnesses in the biological and life sciences. Finally, the book explores expert testimony in the behavioral sciences.

The Bail Book

A Comprehensive Look at Bail in America's Criminal Justice System *Cambridge University Press*

Examines the causes for mass incarceration of Americans and calls for the reform of the bail system. Traces the history of bail, how it has come to be an oppressive tool of the courts, and makes recommendations for reforming the bail system and alleviating the mass incarceration problem.
