Tulia

Race, Cocaine, and Corruption in a Small Texas Town *PublicAffairs*

In the summer of 1999, in the tiny west Texas town of Tulia, thirty-nine people, almost all of them black, were arrested and charged with dealing powdered cocaine. The operation, a federally-funded investigation performed in cooperation with the local authorities, was based on the work of one notoriously unreliable undercover officer. At trial, the prosecution relied almost solely on the uncorroborated, and contradictory, testimony of that officer, Tom Coleman. Despite the flimsiness of the evidence against them, virtually all of the defendants were convicted and given sentences as high as ninety-nine years. Tom Coleman was named a Texas Lawman of the Year for his work. Tulia is the story of this town, the bust, the trials, and the heroic legal battle that

ultimately led to the reversal of the convictions in the summer of 2003. Laws have been changed in Texas as a result of the scandal, and the defendants have earned a measure of bittersweet redemption. But the story is much bigger than the tale of just one bust. As Tulia makes clear, these events are the latest chapter in a story with themes as old as the country itself. It is a gripping, marvelously well-told tale about injustice, race, poverty, hysteria, and desperation in rural America.

This touching and raw teen novel from the author of *Monster*, *Kick*, *We Are America*, *Bad Boy*, and many other celebrated literary works for children and teens is a Coretta Scott King Honor Book. *Darius* and *Twig* are an unlikely pair: *Darius* is a writer whose only escape is his alter ego, a peregrine falcon named *Fury*, and *Twig* is a middle-distance runner striving for athletic success. But they are drawn together in

the struggle to overcome the obstacles that life in Harlem throws at them. The two friends must face down bullies, an abusive uncle, and the idea that they'll be stuck in the same place forever. Maria Russo, writing in the New York Times, included Darius & Twig on her list of "great kids' books with diverse characters." She commented: "The late Myers, one of the greats and a champion of diversity in children's books well before the cause got mainstream attention, is at his elegant, heartfelt best in this 2013 novel. It's about two friends growing up in Harlem, one a writer, one an athlete, facing daily challenges and trying to dream of a brighter future."

The Legends Club

Dean Smith, Mike Krzyzewski, Jim Valvano, and an Epic College Basketball Rivalry *Anchor*

On March 18, 1980, the Duke basketball program announced the hiring Mike Krzyzewski, the man who would restore glory to the team. The only problem: no one knew who Krzyzewski was. Nine days later, Jim Valvano was hired by North Carolina State to be their new head coach. The hiring didn't raise as many eyebrows, but the two new coaches had a similar goal: to unseat North Carolina's Dean Smith as the king of college basketball. And just like that, the most sensational competitive decade in the history of the NCAA was about to unfold. The Legends Club captures an era in American sports and culture as John Feinstein pulls back the curtain on

the recruiting wars, the intensely personal rivalries that weren't always friendly, the enormous pressure and national stakes, and the battle for the very soul of college basketball.

In Defense of Housing

The Politics of Crisis *Verso Books*

In every major city in the world there is a housing crisis. How did this happen and what can we do about it? Everyone needs and deserves housing. But today our homes are being transformed into commodities, making the inequalities of the city ever more acute. Profit has become more important than social need. The poor are forced to pay more for worse housing. Communities are faced with the violence of displacement and gentrification. And the benefits of decent housing are only available for those who can afford it. *In Defense of Housing* is the definitive statement on this crisis from leading urban planner Peter Marcuse and sociologist David Madden. They look at the causes and consequences of the housing problem and detail the need for progressive

alternatives. The housing crisis cannot be solved by minor policy shifts, they argue. Rather, the housing crisis has deep political and economic roots—and therefore requires a radical response.

Pre-Incident Indicators of Terrorist Incidents

The Identification of Behavioral, Geographic and Temporal Patterns of Preparatory Conduct *DIANE Publishing*

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist

group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Exit from Hegemony**The Unraveling of the American Global Order** *Oxford University Press, USA*

"We live in a period of uncertainty about the fate of American global leadership and the future of international order. The 2016 election of Donald Trump led many to pronounce the death, or at least terminal decline, of liberal international order - the system of institutions, rules, and values associated with the American-dominated international system. But the truth is that the unravelling of American global order began over a decade earlier. Exit

from Hegemony develops an integrated approach to understanding the rise and decline of hegemonic orders. It calls attention to three drivers of transformation in contemporary order. First, great powers, most notably Russia and China, contest existing norms and values, while simultaneously building new spheres of international order through regional institutions. Second, the loss of the "patronage monopoly" once enjoyed by the United States and its allies allows weaker states to seek alternative providers of economic and military goods - providers who do not condition their support on compliance with liberal economic and political principles. Third, transnational counter-order movements, usually in the form of illiberal and right-wing nationalists,

undermine support for liberal order and the American international system, including within the United States itself. Exit from Hegemony demonstrates that these broad sources of transformation - from above, below, and within - have transformed past international orders and undermine prior hegemonic powers. It provides evidence that that all three are, in the present, mutually reinforcing one another and, therefore, that the texture of world politics may be facing major changes"--

How Democracies Die *Crown*

NEW YORK TIMES BESTSELLER • "Comprehensive, enlightening, and terrifyingly timely."—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL

GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump's presidency has raised a question that many of us never thought we'd be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road

to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die* “What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that.”—The Washington Post “Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and

international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics.”—Ezra Klein, Vox “If you only read one book for the rest of the year, read *How Democracies Die*. . . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest.”—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal.”—Fareed Zakaria, CNN

Speculative Everything

Design, Fiction, and Social Dreaming *MIT Press*

How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “what if” questions that are intended to open debate and discussion about the

kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more

malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

Homegoing

A novel *Vintage*

A NEW YORK TIMES NOTABLE BOOK • Ghana, eighteenth century: two half sisters are born into different villages, each unaware of the other. One will marry an Englishman and lead a life of comfort in the palatial rooms of the Cape Coast Castle. The other will be captured in a raid on her village, imprisoned in the very same castle, and sold into slavery. One of Oprah's Best Books of the Year and a PEN/Hemingway award winner, *Homegoing* follows the parallel paths of these sisters and their descendants

through eight generations: from the Gold Coast to the plantations of Mississippi, from the American Civil War to Jazz Age Harlem. Yaa Gyasi's extraordinary novel illuminates slavery's troubled legacy both for those who were taken and those who stayed—and shows how the memory of captivity has been inscribed on the soul of our nation.

Popular Longing *Copper Canyon Press*
The poems of Natalie Shapero’s third collection, *Popular Longing*, highlight the ever-increasing absurdity of our contemporary life. With her sharp, sardonic wit, Shapero deftly captures human meekness in all its forms: our senseless wars, our inflated egos, our constant deference to presumed higher powers—be they romantic partners, employers, institutions, or gods. “Why even / look up, when all we’ll see is people / looking down?” In a world where everyone has to answer to someone, it seems no one is equipped to disrupt the status quo, and how the most urgent topics of conversation can only be approached through refraction. By scrutinizing the mundane and all that is taken for granted, these poems arrive at

much wider vistas, commenting on human sadness, memory, and mortality. Punchy, fearlessly ironic, and wickedly funny, Popular Longing articulates what it means to share a planet, for better or more often for worse, with other people.
