Defensible Space By Oscar Newman

The defensible space theory of architect and city planner Oscar Newman encompasses ideas about crime prevention and neighborhood safety. Newman argues that architectural and environmental design plays a crucial part in increasing or reducing criminality. The theory developed in the early 1970s, and he wrote his first book on the topic, *Defensible Space* in 1972. The book contains a study from New York that pointed out that higher crime rate existed in high-rise housing projects than in low-rise c

In fact, Defensible Space theory encompasses a wide range of planning and design strategies that focus attention on reassigning the perceived ownership of residential space. Newman argues that when common spaces associated with highrise housing—such as community rooms and outdoor grounds—lack clear owners or are open to too many users, residents cannot assert responsibility for their safety and maintenance, and these places are left vulnerable to crime and vandalism.

Creating Defensible Space | HUD USER

Oscar Newman, in the 1970s, proposed that the design of our physical environment needed to encourage ownership and worth to its inhabitants. The fact that this was lacking in so many areas never allowed for citizens to feel a sense of responsibility for their surroundings (Lersch, 2011).

Espacio Defendible: Oscar Newman - WordPress.com

Defensible space—This concept was developed in the public housing environment. It is similar to CPTED strategies (Crowe and Fennelly 2013). Environmental security differs from CPTED in that it uses a broader range of crime control strategies including social management, social media, target hardening activity support, and low enforcement.
