Step 1, Measure the length of the monitor screen. Use a ruler to measure the horizontal length of the monitor from one end to the other. Don't include the frame or structure around the monitor, measure only the viewing screen. Step 2, Measure the height of the monitor screen. Only measure the image area rather than the frame or border around the monitor. Use a ruler to determine the vertical height from the top of the screen to the bottom. Step 3, Multiply the length by the height. To find ...

How to Measure Monitor Size: 6 Steps (with Pictures) - wikiHow

The size of a screen is usually described by the length of its diagonal, which is the distance between opposite corners, usually in inches. It is also sometimes called the physical image size to distinguish it from the "logical image size," which describes a screen's display resolution and is measured in pixels.
