Making Sense in the Humanities : a Student's Guide to Writing and Style

How to Write Social Sciences Research Paper: For Students and Professionals *Lulu Press, Inc*

In a research project, the most critical part is writing the report in a way which presents not just our findings, but the process through which we arrived at these findings. It demands honesty about our research design and our perspectives, so that others can understand not just the research we have produced, but something about the way in which we have produced it. When carrying out research it is all too easy to become embroiled in our own research questions and objectives, so that when it comes to presenting our research we forget about situating it within the wider body of knowledge. For the lack of proper knowledge, many people find it difficult to writing up their paper. This book is intended to help you organize and write a quality research paper for Social Sciences. This book also gives you the idea about research design.

The SAGE Guide to Writing in Policing

General Biology II**Organisms and Ecology** *Dog Ear Publishing*

GENERAL BIOLOGY is an introductory level college biology textbook that provides students with an understandable and engaging encounter with the fundamentals of biology. Written for a two-semester undergraduate course of biology majors and presented as a bound set of two distinct volumes, this reader-friendly textbook(s) is concept driven vs. terminology driven. That is, the book(s) are based on the underlying concepts and principles of biology rather than the strict memorization of biological terms and terminology. Written in a student-centered and conversational style, this educational research-based book(s) connects students to all aspects of biology from the molecular to the biosphere. End-of-chapter questions challenge students to think critically and creatively while incorporating science process skills and biological principles.

Feminist Academics

Creative Agents For Change *Taylor & Francis*

This text brings together leading feminists who explore questions

of feminist interventions in organisations of knowledge production, covering both the structure and culture of academic institutions and the social divisions between women. Feminism is located as a force for change, empowering women to gain a political understanding and providing a methodology for new approaches to teaching, learning, research and writing in the academy. Contributions demonstrate how an analysis of the micropolitics of the academy in terms of power, policies, discourses, pedagogy and interpersonal relationships provides a framework for de-privatising women's experience and influencing change. Using theoretical constructs and their own biographies and experience, the contributors present predicaments, inequalities and strategies. Power and influence are considered in conjunction with gender, 'race', social class and sexuality.

Computer Graphics Programming

GKS — The Graphics Standard *Springer Science & Business Media*

TO COMPUTER GRAPHICS BASED ON GKS Part I gives an introduction to basic concepts of computer graphics and to the principles and concepts of GKS. The aims of this part are twofold: to provide the beginner with an overview of the terminology and concepts of computer graphics, based on GKS, and to give the computer graphics expert an introduction to the GKS standard. In the early chapters of this part, the main areas of computer graphics, the various classes of computer graphics users, the interfaces of GKS and its underlying design concepts are discussed and important terms are defined. The later chapters give an informal introduction to the main concepts of GKS and their interrelationships: output, attributes, coordinate systems, transformations, input, segments, metafile, state lists, and error handling. This introduction to the GKS framework will prepare the ground for the detailed description of 2D GKS functions in Part III and the 3D extensions to GKS in Part IV.

1 WHAT IS COMPUTER GRAPHICS? 1. 1 Definition of Computer Graphics The Data Processing Vocabulary of the International Organization for Standardization (ISO) [ISO 84] defines Computer Graphics as follows:

"Methods and techniques for converting data to and from a graphic display via computer. " This definition refers to three basic components of any computer graphics system - namely "data", "computer", and "display".

Fandom as Methodology

A Sourcebook for Artists and Writers *MIT Press*

An illustrated exploration of fandom that combines academic essays with artist pages and experimental texts. Fandom as Methodology examines fandom as a set of practices for approaching and writing about art. The collection includes experimental texts, autobiography, fiction, and new academic perspectives on fandom in and as art. Key to the idea of "fandom as methodology" is a focus on the potential for fandom in art to create oppositional spaces, communities, and practices,

particularly from queer perspectives, but also through transnational, feminist and artist-of-color fandoms. The book provides a range of examples of artists and writers working in this vein, as well as academic essays that explore the ways in which fandom can be theorized as a methodology for art practice and art history. *Fandom as Methodology* proposes that many artists and art writers already draw on affective strategies found in fandom. With the current focus in many areas of art history, art writing, and performance studies around affective engagement with artworks and imaginative potentials, fandom is a key methodology that has yet to be explored. Interwoven into the academic essays are lavishly designed artist pages in which artists offer an introduction to their use of fandom as methodology. Contributors Taylor J. Acosta, Catherine Grant, Dominic Johnson, Kate Random Love, Maud Lavin, Owen G. Parry, Alice Butler, Soojin Lee, Jenny Lin, Judy Batalion, Ika Willis. Artists featured in the artist pages Jeremy Deller, Ego Ahaïwe Sowinski, Anna Bunting-Branch, Maria Fusco, Cathy Lomax, Kamau Amu Patton, Holly Pester, Dawn Mellor, Michelle Williams Gamaker, The Women of Colour Index Reading Group, Liv Wynter, Zhiyuan Yang
