Matter is all around you. Matter is anything that takes up space. Mass is the amount of matter in an object. It is how much stuff an object is made of.

Comparing matter. Science Worksheets and Study Guides

...

The temperature determines the state of a substance. When heated enough, a solid changes to a liquid, and a liquid to a gas. These changes of state take place because the molecules, or tiny bits of matter that make up the substance, vibrate faster when the substance is heated (kinetic energy increases).
