Low Town is Daniel Polansky's debut novel - a fantasy that's not completely a fantasy. Told in the first person, Low Town is, and I don't think I'm the first to report, a crime noir story in a fantastical setting. It literally is a crime thriller set in a medieval secondary world...and it's works really well.

Low Town (Low Town, #1) by Daniel Polansky

Polansky's fantasy world draws upon a range of real world historical settings - Low Town felt like a thinly disguised eighteenth/nineteenth century London while the main character's war reminiscences seem to have been based on WW1 (the battle of Apres, sounding very much like the battle of Ypres) - with some magical elements and a bit of noirish dialogue sprinkled on top.
