Wildflower

An Extraordinary Life and Untimely Death in Africa *Random House*

With compassion and an unswerving regard for the truth, veteran journalist Mark Seal lays bare the deeply moving, inspirational story of Joan Root, a dedicated environmentalist and Oscar-nominated wildlife filmmaker. He covers her early days in Kenya as a shy young woman with an almost uncanny ability to connect to animals; her whirlwind courtship with the dashing Alan Root, their marriage, and the twenty years of nonstop adventure and passionate romance that followed, both in Africa and around the world; the shattering disintegration of the marriage and partnership; and Joan's triumphant struggle to reinvent herself as the protector of her lakeshore community's fragile ecosystem—a struggle that would lead to her tragic death in January 2006. Joan Root dreamed of a bright future for Kenya, a country blessed with unmatched beauty but scarred by decades of colonization and a culture of corruption. She spent her life fighting to make that dream a reality. Her life ended too soon, but "thanks to Seal's meticulous re-creation, her extraordinary life lives on." (People, four-star review)

Fauna and Family

More Durrell Family Adventures on Corfu *David R. Godine Publisher*

Fauna and Family, also known as *The Garden of the Gods*, is the third in Durrell's Corfu trilogy that begins with his beloved classic, *My Family and Other Animals* and continues with *Birds, Beasts and Relatives*. In his foreword to *Fauna and Family*, Durrell confessed that in the first two books, "I had left out a number of incidents and characters that I would have liked to have described, and I have attempted to repair this omission in this book . . . I hope that it might give the same pleasure to its readers as apparently its predecessors have done, as for me it portrays a very important part of my life . . . which is a truly happy and sunlit childhood."

The Wild Parrots of Telegraph Hill

A Love Story . . . with Wings *Crown*

The Wild Parrots of Telegraph Hill is the inspiring story of how one man found his life's work—and true love—among a gang of wild parrots roosting in one of America's most picturesque urban settings. Mark Bittner was down on his luck. He'd gone to San Francisco at the age of twenty-one to take a stab at a music career, but he hadn't had much success. After many years as an odd-jobber in the area, he accepted work as a housekeeper for an elderly woman. The gig came with a rent-free studio apartment on the city's famed Telegraph Hill, which had somehow become home to a flock of brilliantly colored wild parrots. In this unforgettable story, Bittner recounts how he became fascinated by the birds and made up his mind to get to know them and gain their trust. He succeeds to such a degree that he becomes the local wild parrot expert and a tourist attraction. People can't help gawking at the man who, during daily feedings, stands with parrots perched along both arms and atop his head. When a documentary filmmaker comes along to capture the phenomenon on film, the story takes a surprising turn, and Bittner's life truly takes flight.

On Foot to Canterbury

A Son's Pilgrimage *University of Alberta*

Setting off on foot from Winchester, Ken Haigh hikes across southern England, retracing a traditional route that medieval pilgrims followed to the shrine of Saint Thomas Becket at Canterbury Cathedral. Walking in honour of his father, a staunch Anglican who passed away before they could begin their trip together, Haigh wonders: Is there a place in the modern secular world for pilgrimage? On his journey, he sorts through his own spiritual aimlessness, while crossing paths with writers like Trollope, Keats, Austen, Swift, Dickens, and, of course, Chaucer. On Foot to Canterbury is part travelogue, part memoir, part literary history, and all heart.

The Picnic and Suchlike Pandemonium *Boxtree*

If you loved My Family and Other Animals and can't get enough of the Durrells after the Corfu series, this is the book for you. It constitutes a series of anecdotal snippets and short stories including 'The Picnic', a laugh-out-loud account of an ill-fated Durrell family excursion, which should have been a relaxing, jolly affair. But with the Durrells things are seldom straightforward and on this occasion all that could go wrong did go wrong - except Gerald Durrell's sense of humour in recounting the tale. Other hilarious and surreal Roald Dahlesque stories ensue, including the critically acclaimed Gothic horror story 'The Entrance'.

Are We Smart Enough to Know How Smart Animals Are?

W. W. Norton & Company

A New York Times bestseller: "A passionate and convincing case for the sophistication of nonhuman minds." —Alison Gopnik, *The Atlantic* Hailed as a classic, *Are We Smart Enough to Know How Smart Animals Are?* explores the oddities and complexities of animal cognition—in crows, dolphins, parrots, sheep, wasps, bats, chimpanzees, and bonobos—to reveal how smart animals really

are, and how we've underestimated their abilities for too long. Did you know that octopuses use coconut shells as tools, that elephants classify humans by gender and language, and that there is a young male chimpanzee at Kyoto University whose flash memory puts that of humans to shame? Fascinating, entertaining, and deeply informed, de Waal's landmark work will convince you to rethink everything you thought you knew about animal—and human—intelligence.

The Faber Book of Beasts *Faber & Faber*

The Faber Book of Beasts is a collection of many of the best poems in English about the creatures who share our planet. The animal kingdom has prompted some of the liveliest and most enjoyable writing by poets, from Homer to our contemporaries. Among the creatures gathered here, tame or wild; common or exotic, are mammals, reptiles, birds, insects, and others perhaps more fanciful than real. A zoologist's delight. There is, too, a moral or philosophical purpose. As Paul Muldoon says in his introduction: 'We are most human in the presence of animals.' And it is just this sense of how our humanity is illuminated by the contemplation of bestial life that he has set out to celebrate. The results are wonderfully rich and thought-provoking.

The Garden of the Gods *Viking*

The third book in The Corfu Trilogy (after *My Family and Other Animals* and *Birds, Beasts and Relatives*), the beloved books that inspired ITV's television series *The Durrells*. Just before the Second World War the Durrell family decamped to the glorious, sun-soaked island of Corfu where the youngest of the four children, ten-year-old Gerald, discovered his passion for animals: toads and tortoises, bats and butterflies, scorpions and octopuses. Through glorious silver-green olive groves and across brilliant-white beaches Gerry pursued his obsession . . . causing hilarity and mayhem in his ever-tolerant family.

The Best of Gerald Durrell

The second edition of this book, guides you through a proven, results-based approach to calculating the return on investment (ROI) in training and performance improvement programmes. It should be a useful primary reference for learning how to utilize ROI to show the contribution of training, education, learning systems, performance improvement, and change initiatives throughout organizations. The book also details implementation issues, provides worksheets and pinpoints non-monetary programme benefits. A case study takes the reader through the ROI process step-by-step.
