The Archaeology Of Death And

The archaeology of death and burial is central to our attempts to understand vanished societies. Through the remains of funerary rituals we can learn not

only about the attitudes of prehistoric people to death and the afterlife, but also about their way of life, their social organisation and their view of the world.

The Archaeology of Death and Burial: Amazon.co.uk: Parker ...

The Archaeology of Death and Burial is an archaeological study by the English archaeologist Mike Parker Pearson, then a professor at the University of Sheffield. It was first published in 1999 by Sutton Publishing Limited, and later republished by The History Press. Parker Pearson's book adopts a post-processual approach to funerary archaeology. It explores earlier approaches to the

subject that have been advocated by social anthropologists and processual archaeologists. The Archaeology of Death

The Archaeology of Death and Burial - Wikipedia

The archaeology of death and burial provides a privileged source of insight into the lives of people in the past. This kind of archaeological feature commonly includes the material remains of the dead, containing biological information of age, sex, pathologies, DNA profiles, and isotopic signals of diet and migration.

The Archaeology of Death and Burial (Texas A&M University ...

In the literature of funerary archaeology, reference is often made to secondary burials, but it is important to understand the criteria which allow their identification. A frequently used criterion is that of 'disorder' in the arrangement of the bones, an expression currently used to indicate that they are not anatomically connected.

The Archaeology of the Dead: Lectures in ...

Description Evidence for the disposal of the dead is one of the most common classes of archaeological data; in both prehistoric and historic contexts, archaeologists have long used the remains of death and burial as a source for interpretations of society, culture and ethnic identity.

The Archaeology of Death : Robert Chapman : 9780521237758

Edited by Howard Williams and Melanie Giles. Description. This volume addresses the relationship between archaeologists and the dead, through the many dimensions of their relationships: in the field (through

practical and legal issues), in the lab (through their analysis and interpretation), and in their written, visual and exhibitionary practice--disseminated to a variety of academic and public audiences.
