Policy is one potentially effective way to improve the health of populations. This document provides public health practitioners with a summary of the domains of the CDC policy process (See Figure 1). The goal of this overview is to foster a common understanding of what policy is and the process by which it is conceptualized, developed, adopted, and evaluated.

CDC Policy Process | AD for Policy and Strategy | CDC

Policy process. The development of national health policies, strategies, and plans is a complex and dynamic process. Its precise nature varies from country to country according to the political, historical, and socio-economic context. There is no single blueprint for conducting the policy process. However, the WHO framework for national health policies, strategies, and plans identifies the following key elements of sound process:

WHO | Policy process

We are working to strengthen participation in all of our projects and programmes of work, including policy making and commissioning (the process of planning, buying and monitoring health services). This work is underpinned by our Patient and Public Participation Policy.

NHS England » Our policies and procedures

Policy in healthcare is vitally important as it sets a general plan of action used to guide desired outcomes and is a fundamental guideline to help make decisions. The purpose of healthcare policy and procedures is to communicate to employees the desired outcomes of the organization.
