It studies the deployment of dynamics to explain the co-evolution of economic and environmental systems. The authors also explore how technological innovation drives sustainability goals, and demonstrate the importance of working at sector level rather than at aggregated national level.

The Dynamics of Environmental and Economic Systems ...

In this article we study the endogenous evolution and dynamics of environmentalism. By environmentalism we mean a certain attitude towards the environment that translates into a green behavior. Our approach here is based on the recent literature of cultural dynamics, especially on two papers by Bisin and Verdier, 1998, Bisin and Verdier, 2001. They derive cultural dynamics of preferences and norms through a transmission of social interactions across generations.
