responsibility (CER) and aims to present a criminological analysis of it. We studied the opinion of a number of principle actors involved in CER in Europe in order to determine how they perceive it in terms of its definition, aetiology and approaches. For each of these dimensions we relate back to a criminological framework to ascertain how it is positioned in the green criminological debate.

Even though there are many laws which prevent and penalize crimes, it is really hard for the law enforcement authorities to execute multinational corporations compared to individuals. Currently, environmental pollution and human rights violations by multinational corporations have become major issues which influence the society with negative implications.

Environmental Pollution and Human Rights Violations by ...

Introduction.
Environmental crime covers acts that breach environmental legislation and cause significant harm or risk to the environment and human health. The most known areas of environmental crime are the illegal emission or discharge of substances into air, water or soil, the illegal trade in wildlife, illegal trade in ozone-depleting substances and the illegal shipment or dumping of waste.
