The 48 page guide provides good practice guidance on designing, installing, commissioning and

maintaining sprinkler systems so they fulfil their purpose in the event of a fire. It covers a range of issues related to automatic sprinkler systems , including; UK standards , design , installation and maintenance of existing and novel products .

Automatic fire sprinkler systems: A good practice guide ...

A fire sprinkler head is the component of a sprinkler system that discharges water when the fire has been detected. It comes in assorted designs. Each sprinkler head contains a trigger mechanism, which opens to release water onto the fire. With conventional heads, suitable for most residential fire sprinkler systems, some water is discharged onto the ceiling.

Fire sprinkler systems: A beginner's guide

An automatic sprinkler system consists of water supply (tank, pump and valves) and sprinkler installation (pipes and heads). The specifications of the design depend primarily on the hazard classification of the occupancy of the building. The specifications include head spacing dimensions, assumed area of maximum operation (number of heads in- operation), design density (water discharge), water supply period, and tank volume .

Sprinkler Training Courses | Fire Protection Association

One of the most significant differences between automatic fire suppression systems and other building components is the need for strict adherence to published standards, not only in respect of the manufacture of components but also for the design and installation of the systems themselves.

Technical Standards - bafsa

It is clear that fire sprinkles protect a property and can save lives, and this is a compelling reason for fitting them, however sprinklers also offer significant design benefits. Fitting fire sprinklers enables more open plan designs and reduces the need for fire doors and self closing doors. These design benefits can free up additional space in a building, increase the mobility of the occupants and make it a more pleasant environment to live in. The driving reason for fitting fire ...
