The FANUC teach pendant is designed for either left or right handed operation. The strap is typically placed on your non-dominate hand, leaving your dominate hand to hit most buttons and navigation keys. The strapped hand is used for the DeadMan switch and often the SHIFT key. The teach pendant is corded to the robot's main controller. Navigation

That's why I wrote this book. Over the last 11+ years I've worked with many programmers who had to blindly stumble around the Teach Pendant, guessing at the best way to get things done, even after attending a training course. I've done hundreds of code reviews where application errors were the result of just doing things "the hard way" when there was a much easier way.
