Local Style In English Architecture: An Enquiry Into Its ...

English architecture has varied significantly by location, according to readily available building materials. The typical Cotswold village, for example, consists of structures of the local silvery limestone with slate roofs. A honey-coloured stone was much used in Oxford, and a rusty ironstone is typical in northern Oxfordshire and Northamptonshire, along the line of an ironstone belt.

England - Architecture | Britannica

The architecture of England is the architecture of modern England and in the historic Kingdom of England. It often includes buildings created under English influence or by English architects in other parts of the world, particularly in the English and later British colonies and Empire, which developed into the Commonwealth of Nations. Apart from Anglo-Saxon architecture, the major forms of non-vernacular architecture employed in England before 1900 originated elsewhere in western Europe, chiefly

Vernacular Architecture in the British Isles

The Baroque style has its roots in church architecture, especially Catholic Church architecture, but it's influence spread across Europe and influenced the architects of the quintessentially English country estates. The Baroque influence was very short-lived and contemporary English Baroque houses are not abundant.

British Architectural Styles - Boha

English architecture did not, of course, follow a rigid timeline,

with clear divisions between periods and styles of building. What follows is an attempt to organize themes and philosophies of building styles in roughly chronological order, realising that many periods overlapped each other and many styles may well have been in use in the same region or even in the same building at the same time.

English Architecture - a history - Britain Express

Local authorities, charged with the task of rebuilding city centres, became important patrons of architecture. After the Second World War the situation began to change.

BBC - History - A History of British Architecture

English Gothic is an architectural style which flourished in England in the Late Middle Ages and Early Modern Period. The style was most prominently used in the construction of churches and cathedrals. Gothic's defining features are pointed arches, rib vaults, buttresses, and extensive use of stained glass. Combined, these features allowed the creation of buildings of unprecedented height and grandeur, filled with light from large stained glass windows.

Architecture was also to be reformed through traditional building crafts, the use of local materials, and be free of any imposed style. Function, need and simplicity (without spurious ornament) were to inform design, encapsulated in the work of Philip Webb, Richard Lethaby and Charles Voysey.

Arts and Crafts: an architectural style guide

The English architectural style of the later 14th and 15th centuries was Perpendicular. This was a marked change from the previous Decorated version of the Gothic. PERPENDICULAR CHURCHES In northern Europe, the Decorated style developed into the convoluted and florid Flamboyant style, but the Perpendicular is distinctively English.
