How To Shoot in MANUAL Mode! | Photography 101 - YouTube

When we shoot in manual mode, we choose the setting of each of those three elements, to create a balance that results in our desired exposure and our artistic vision. So we need to examine the exposure triangle and gain an understanding of how each element captures light, and what effect each one has on the photo. Only then can we make decisions on our settings for the purpose of avoiding problems such as images that are too dark, too light, or out of focus, etc.

How to Shoot in Manual Mode | Click Love Grow

The "M" on the dial stands for Manual Mode! Command Dial: You will use this important dial to manually adjust your camera's aperture and shutter speed settings. Camera Manual: You may need some assistance from your camera manual in order to learn how to manually adjust your aperture, shutter speed, and ISO settings.
