The Euro: How a Common Currency Threatens the Future of ...

In *The Euro*, Columbia Business School professor and Nobel Prize-winning economist author Joseph E. Stiglitz argues that the fundamental cause of the Eurozone's recent economic difficulties was the creation of a single currency without the institutions to support it. The euro bound 19 countries with very different economies—and very different views about economics—together, but it did not include the institutions or rules to make such a union succeed.
