Big Bore Airgun Pellet Mold

You want to fill the mold until it overflows just a bit to ensure proper mold fill out. The over flow from casting lead bullets for big bore airguns is called the sprue. Hold the mold still for a few seconds after the pour and then knock the sprue plate open to cut the sprue from the base of the bullet.

Extreme big bore air rifles fire large cal pellets that weight much more than regular caliber pellets. Because big bore air rifles fire larger heavier pellets they also have to be more powerful than non-large caliber air rifles so that they can fire the heavier pellet. This increase in power equals an extreme increase in velocity of the bigger heavier pellet creating the foot pounds of energy need to hunt large animals. The best large cal high powered big bore air rifles for sale can quietly ...
