The Center for Electronic Texts in the Humanities (CETH) is pleased to announce the availability on the World-Wide Web of three pilot projects in SGML markup according to the guidelines of the TEI (Text Encoding Initiative).

Center for Electronic Texts in the Humanities - H-Net

The term electronic text is used here to mean a searchable text which permits many more uses in humanities scholarship than the representation of text as an image, although eventually we believe that a combination of text and image format will present a more enhanced view of text. Electronic texts may be in plain text (often called ASCII) format, which can be manipulated by whatever software chosen, or they may be indexed for specific software and only usable with that software.
