Now, it's time to write some JPA queries using the Hibernate perspective in JBoss Developer Studio. In the upper right corner

of the workbench there is a small icon (see the figure below), click on it and choose Hibernate .

Getting Started with JBoss Developer Studio

JBoss Developer Studio is a development environment created and currently developed by JBoss and Exadel. It integrates and certifies both tooling and runtime components by combining Eclipse, Eclipse Tooling, and the JBoss Enterprise Application Platform. The built-in development tools are used to build rich Web applications using open source technologies like JBoss Seam, JBoss Application Server, Hibernate and JBoss jBPM. JBoss Developer Studio is constantly

updated to include the latest release
