Perception and Misperception in International Politics: New Edition examines and tests, through historical example and precedent, the application of cognitive psychology on political decision making. Dr Robert Jervis describes the process of perception , for example how decision makers learn from history, and then explores common forms of misperception, such as overestimating one's influence on other decision makers.

Book Review | Perception and Misperception in ...

One of the insights from the new preface to Perception and Misperception that poses the greatest challenge to current research on international politics is Jervis's critique of Bayesian logic, which is derived from a theory of probability attributed to the Reverend Thomas Bayes and published in 1763, two years after his death.

Roundtable 10-4 on Perception and Misperception in ...

Jervis applies his theory to predict whether the US and USSR are likely to engage in a nuclear war. Misperceptions could increase the probability of conflict (US vs. USSR), but it is a game of chicken: nuclear war will not happen if both sides are minimally rational and control their behavior, but will be more likely if both sides conclude war is inevitable
