A Doctor's Journey to the Ends Of The Earth *Simon and Schuster*

A young doctor cycles around the world and discovers how societies treat their most vulnerable, in this thought-provoking and witty medical odyssey In 2010 Stephen Fabes rode away from his career as an emergency doctor in London, on a journey that would see him ride the length of six continents—more than 53,568 miles—for a cycling circumnavigation that took six years. Signs of Life is his story of a world of challenges, from Tajik camel spiders to camping on a frozen lake in Mongolia, from coaxing another few miles out of “Ol’ Patchy” (his faithful inner tube), to fascinating interactions with the people of seventy-five countries. As he rides, he will meet hospitable nomads and curious children, vindictive border guards and gangsters. Signs of Life is also a story of Stephen re-finding his medical calling. He recalls his first pronouncement of death as he examines the frozen body of a monk high in the Himalayas, and he finds himself drawn into treating patients at a leprosy clinic and helping refugees at The Jungle in Calais. All the while, he reflects on these societies treat their most vulnerable and draws comparisons with the lost souls he had treated back home in London. Signs of Life is a luminous, often gripping blend of cycling and true adventure combined with the marvels of medicine and healing.

A Memoir *Crown*

“I know. I know. No one says it but I know...” —from Signs of Life
Twenty-four-year-old Natalie Taylor was leading a charmed life. At the age of twenty four, she had a fulfilling job as a high school English teacher, a wonderful husband, a new house and a baby on the way. Then, while visiting her sister, she gets the news that Josh has died in a freak accident. Four months before the birth of her son, Natalie is leveled by loss. What follows is an incredibly powerful emotional journey, as Natalie calls upon resources she didn’t even know she had in order to re-imagine and re-build a life for her and her son. In vivid and immediate detail, Natalie documents her life from the day of Josh’s death through the birth their son, Kai, as she struggles in her role as a new mother where everyone is watching her for signs of impending collapse. With honesty, raw pain, and most surprising, a wicked sense of humor, Natalie recounts the agonies and unexpected joys of her new life. There is the frustration of holidays, navigating the relationship with her in-laws, the comfort she finds and unlikely friendship she forges in support groups and the utterly breathtaking, but often overwhelming new motherhood. When she returns to the classroom, she finds that little is more healing than the honesty and egocentricity of teenagers. Drawing on lessons from beloved books like *The Color Purple* and *The Catcher in the Rye* and the talk shows she suddenly can’t get enough of, from the strength of her family and friends, and from a rich fantasy life—including a saucy fairy godmother who guides her grieving—Natalie embarks on the ultimate journey of self-discovery and realizes you can sometimes find the best in yourself during the worst life has to offer. And she delivers these lessons, in way that feels like she’s right beside you in her bathrobe and with a glass of wine--the cool, funny girlfriend you love to stay up all night with. Unforgettable and utterly absorbing, Signs of Life features a powerful, wholly original debut voice that will have you crying and laughing to the very last page.

Back to the Basics of Authentic Christianity *Thomas Nelson*

A tour de force of life on a journey with Jesus. By all means, take this journey if you can.—Chuck Colson, Founder, Prison Fellowship With our society's sometimes unfavorable view of Christians, it is all the more important that believers display what Dr. David Jeremiah calls signs of life — signs that Jesus has transformed us and that we are committed to Him and His kingdom. They are signs that ought to be detected from across the street, over the fence, down the hall, throughout the office, or in the pews, for it's not enough to just talk about Jesus. It's also not enough to serve Him in secret with our acts of private devotion. We have to display the lifestyle of the Nazarene in the midst of a corrupt and darkened culture. In a world starved for love, joy, peace, patience, kindness, faithfulness, honesty, relevance, and compassion, Christians should specialize in exactly those things through public expressions of private faith. It's by our smile, our compassion in the face of misfortune, our friendliness, our simple lifestyle, our willingness to commit random acts of kindness, our social ministries, our tears, and our words that unbelievers recognize Who we represent. *Signs of Life* will lead you on a journey to a fuller understanding of the marks that identify you as a Christian. Signs that will advertise your faith. Personal imprints that can impact souls for eternity and help you become a person of influence who radiates relevancy, authenticity, generosity, and compassion every day — just like Jesus did.

Photographs by Peter Sekaer *Steidl*

Peter Sekaer (1901-50) emerged as an artist in the company of Ben Shahn, Berenice Abbott, and Walker Evans. This book intends to show how he stepped from their benign shadows to build his own distinctive style. It is the first monograph to show the full range of his accomplishments. Sekaer's early work combines dispassionate images with others that show his concern and intuitive grasp of the human condition. Many of his most memorable photographs were made while fulfilling mundane assignments for various government agencies. Sekaer had none of the reformers' passion found in the works of Jacob Riis or Lewis Hine. His stance was more that of the artist/anthropologist, who delighted in recording the artifacts and gestures that defined American society in the 1930s. John T. Hill is a photographer, designer, and formerly Director of Graduate Studies in Photography at Yale University. He first became attracted to Sekaer's work in his capacity as executor of the Walker Evans estate. He is co-author of *Walker Evans: The Hungry Eye* and author of *Walker Evans: Lyric Documentary*. Current projects include volumes on the works of Herbert Matter and Norman Ives. Julian Cox is curator of photography at the High Museum of Art, Atlanta. His recent publications include *The Portrait Unbound: Photographs by Robert Weingarten (2010)*, *Road to Freedom: Photographs of the Civil Rights Movement, 1956-1968 (2008)* and *Harry Callahan: Eleanor (2007)*. Christina Sekaer, is the younger daughter of Peter Sekaer. In addition to her work as a psychiatrist, she is active as a photographer and painter. She lives in Dobbs Ferry, New York. Co-Published with the High Museum of Art, Atlanta in cooperation with the Howard Greenberg Gallery, New York. Exhibition: High Museum of Art, Atlanta, June 5, 2010 to January 9, 2011

Homilies on the Church's Sacraments *Ignatius Press*

At life's many crossroads, the sacraments of the Church—Baptism, Confirmation, Confession, Holy Eucharist, Matrimony, Holy Orders, and Anointing of the Sick—bring people into contact with the saving work of God. In this collection of homilies, Joseph Ratzinger (Pope Benedict XVI) explains these celebrations of the Church and shows how they always offer an opportunity to announce our faith in Christ and to deepen our understanding of it. Ratzinger endeavored as a theologian to

develop an understanding of the sacraments that would help to make participation in them, and in the Paschal Mystery, more fruitful. Many of these homilies connect the sacraments with a profound interpretation of Scripture. The scriptural passages interpreted in each homily are listed at the beginning of the chapter, so that this volume can also be used for scriptural meditation. Since the Church herself is both a sacrament—that is, a sign of God's saving action in the world—and the place where the sacraments take place, two of the chapters are about the Church, the body of believers where God dwells.

Easy to use and designed as both an introduction for the cosmically curious and a deep dive for experienced spiritual seekers, this guide shows you how to interpret your chart, find balance, and reconnect with yourself. Consult *The Signs* to learn what to do when: • You're an inflexible Taurus, resistant to change. (Create things. Even a home-cooked meal will heal you in wondrous ways.) • You live with an argumentative Aries. (Never fight fire with fire. Discover your psychic powers and learn to use the wonders of

nature and the world around you as magical tools of divination. • Practical and enjoyable exercises help readers reconnect with their innate psychic sensitivity. • Includes 75 methods and practices of divination from around the world. Because these observers have been able to tap into a deeper level of awareness, they have come to sense hidden truths in powerful and mysterious ways. In modern times we call those who possess these abilities "psychic," but native cultures accepted that each of us has an innate sixth sense and can learn how to read the forces of nature that appear before us. In this fascinating and enlightening guide, historian and psychic Sarvananda Bluestone shows us how our innate knowledge can be rediscovered, allowing us to become far more in tune with our surroundings than we ever dreamed possible. He teaches us to use everyday objects and the wonders of nature as magical tools that offer a window into the future--and ourselves. Whether watching birds cross the morning sky or divining the subtle energies of the earth, you will see the world in an entirely new light. Filled with practical exercises, *How to Read Signs and Omens in Everyday Life* demonstrates how the discovery of the power within ourselves requires nothing more than a little guidance and a willingness to see.

The Secret Language of the Universe *Spiegel & Grau*

"Laura Lynne Jackson is a psychic medium and the author of the New York Times bestseller *The Light Between Us*. She possesses an incredible gift--the ability to communicate with loved ones who have passed, convey messages of love and healing, and impart a greater understanding of our interconnectedness. Though her abilities are exceptional, they are not unique, and that is the message at the core of this book. Understanding "the secret language of the universe" is a gift available to all. As we learn to ask for and recognize signs from the other side, we will start to find meaning where before there was only confusion, we will see light in the darkness. We may decide to change paths, push toward love, pursue joy, and engage with life in a whole new way. In *Signs*, Jackson is able to bring the mystical into the everyday. She relates stories of people who have experienced these uncanny revelations and instances of unexplained synchronicity, as well as those drawn from her own experience. There's the producer whose lost child appears to her as a deer that approaches her unhesitatingly at a highway rest stop; the name tag of an ER nurse that lets a terrified wife know that her husband will be okay; the Elvis Presley song that arrives at the exact time of her own father's passing; and many others. This is a book that is both inspiring and practical, deeply comforting and wonderfully motivational in asking us to see beyond ourselves to a more magnificent universal design"--

One Man and His Bike *Random House*

What would happen if you were cycling to the office and just kept on pedalling? Needing a change, Mike Carter did just that. Following the Thames to the sea he embarked on an epic 5,000 mile ride around the entire British coastline - the equivalent of London to Calcutta. He encountered drunken priests, drag queens and gnome sanctuaries. He met fellow travellers and people building for a different type of future. He also found a spirit of unbelievable kindness and generosity that convinced him that Britain is anything but broken. This is the inspiring and very funny tale of the five months Mike spent cycling the byways of the nation.

Signs of Life**Photographs****Signs of Music****A Guide to Musical Semiotics** *Walter de Gruyter*

Music is said to be the most autonomous and least representative of all the arts. However, it reflects in many ways the realities around it and influences its social and cultural environments. Music is as much biology, gender, gesture - something intertextual, even transcendental. Musical signs can be studied throughout their history as well as musical semiotics with its own background. Composers from Chopin to Sibelius and authors from Nietzsche to Greimas and Barthes illustrate the avenues of this new discipline within semiotics and musicology.

Signs of Hope**How Small Acts of Love Can Change Your World** *Zondervan*

Changing the world--or at least your corner of it--is easier than you think. With so much suffering in our communities and in the world, it can feel impossible to make an impact. "What good can I possibly do?" we ask. Amy Wolff, a busy mom and small business owner, often felt this way--and didn't feel qualified to connect and uplift others. But one day, after hearing about several suicides and suicide attempts in her community, she printed 20 yard signs with hopeful messages and anonymously placed them throughout her city. This small action sparked a global movement of encouragement, hope, and love, which spread to 50 states and 27 countries in just 18 months. *Signs of Hope* is an intimate collection of stories from Amy's personal life, as well as people impacted by the movement, about the power of hope and love in the midst of suffering. This book discusses: The drain of compassion fatigue Why we should show up imperfectly to help others How to claim hope for ourselves Practical ideas of how to respond to suffering Strategies of how to love people who are "different" Resilience when love-spreading efforts backfire How to raise a compassionate generation The science of hope *Signs of Hope* is your catalyst for doing something today . . . because there's no perfect time to help others. The time is now.

Biosemiotics**An Examination Into the Signs of Life and the Life of Signs**

Recent debates surrounding the teaching of biology divide participants into three camps based on how they explain the appearance of the human race: evolution, creationism, or intelligent design. Biosemiotics discovers an intriguing higher ground respecting those opposing theories by arguing that questions of meaning and experiential life can be integrated into the scientific study of nature. This groundbreaking book shows how the linguistic powers of humans imply that consciousness emerges in the evolutionary process and that life is based on sign action, not just molecular interaction. Biosemiotics will be essential reading for anyone interested in the nexus of linguistic possibility and biological reality.

Our Towns**A 100,000-Mile Journey into the Heart of America** *Vintage*

NATIONAL BEST SELLER • The basis for the HBO documentary now streaming on HBO Max For five years, James and Deborah Fallows have travelled across America in a single-engine prop airplane. Visiting dozens of towns, the America they saw is acutely conscious of its problems—from economic dislocation to the opioid scourge—but it is also crafting solutions, with a practical-minded determination at dramatic odds with the bitter paralysis of national politics. At times of dysfunction on a national

level, reform possibilities have often arisen from the local level. The Fallowses describe America in the middle of one of these creative waves. Their view of the country is as complex and contradictory as America itself, but it also reflects the energy, the generosity and compassion, the dreams, and the determination of many who are in the midst of making things better. Our Towns is the story of their journey—and an account of a country busy remaking itself.
