International Conference on Computer-Aided Architectural ...

Computer-aided architectural design software programs are the repository of accurate and comprehensive records of buildings and are used by architects and architectural companies. The first program was installed back in the 1960s, to help architects save time instead of drawing their blueprints. Computer-aided design also known as CAD was originally the type of program that architects used, but since CAD could not offer all the tools that architects needed to complete a project, CAAD developed a
