proper as competently as simple quirk to get those all. We offer embedded system based motor control for agricultural and numerous books Page 2/9.

Embedded System Based Motor Control For Agricultural

This paper designed a DC motor speed control system. The controller is ARM S3C2410, and the operating system is μ C/OS-II, a real time operating system. Designed a closed loop system of motor speed control, adopted the algorithm of PWM to control the armature voltage, and motor speed is controlled by regulating, of armature voltage. The system has a good response.

Embedded System of DC Motor Speed Control Based on ARM

His research interests include Robotics, Computer Controlled Systems and the Embedded System design for Control Systems. He has coauthored many journal and conference papers and has supervised many Ph.D. and M.Sc. for students working in the field of Intelligent Control Systems, Embedded Control Systems, Advanced Techniques for Systems Modeling, and Vision based Control of Robotic Systems.
