Written by admin. SIMATIC S7-300 is the modular mini PLC system for the lower and medium performance ranges (Fig. 1.1). Different versions of the controllers allow the performance to be matched to the respective application. Depending on the requirements, the programmable controller can be expanded by input/output modules for digital and analog signals in up to four racks with eight modules each.

SIMATIC S7-300 has been specially designed for innovative system solutions in the manufacturing industry, and with a diverse range of controllers it offers the optimal solution for applications in centralized and distributed configurations. Alongside standard automation safety technology and motion control can also be integrated.
