The Language of Science and Faith is a readable and comprehensive resource for the thoughtful Christian who refuses to choose. Giberson and Collins tackle difficult topics with charity, accessibility and integrity, moving the origins conversation forward in a way that honors God and builds up the church.

The Language of Science and Faith - InterVarsity Press

The Language of Science The main reason students find it difficult to understand science is because of all the hard to write, spell and read words. Actually, scientific vocabulary is a hodge podge of little words that are linked together to have different meanings.

The Language of Science - The Biology Corner

Languages—exquisitely structured, complex, and diverse—are a distinctively human gift, at the very heart of what it means to be human. As such, language makes for both a particularly important and difficult topic in neuroscience. A dominant early approach to the study of language was to treat it as a separate module or organ within the brain.

English As A Language of Science and Technology

The Language of Science. English is certainly the language of science in the modern world, with an estimated 98% of all scientific publications being written in the language. But it hasn't always been that way. Before the 17th century, scientific publications were mostly written in Latin.

The Language of Science | Morningside

In the light of our proposal, that language plays an active role in the development of science, we feel that an empirical investigation of the role of language in science is called for and, at the same time, an examination of different situations in which the supposed inadequacies of language have led to "improvements" or substitutions for existing language with a view to rendering it more serviceable for the purpose of expressing scientific concepts and theories.

The Role of Language in Science - F. David Peat

The Language of (Future) Scientific Communication. English is generally considered to be the lingua franca of the scientific community. For example, roughly 80% of all the journals indexed in Scopus are published in English. The adoption of English as the universal language of science is due in part to historical political and economic factors which favored English over other potential candidate languages such as Chinese, French, German, Russian, or Spanish (1), (2), (3).

The Language of (Future) Scientific Communication ...

English, according to Drubin and Kellogg (2012), is now used almost exclusively as the language of science. Though up till now, the world Scientist Association has not officially declared the language as the official language of science, but almost all activities in science and technology are carried in the language.
