Come over to the short side. Ever since Dutch trader Isaac Le Maire invented short selling in 1609 (and evoked the first ban on it), short selling has been seen as the dark side of stock trading—slightly suspect and too intricate for individual investors. Today, short selling is an integral part of all markets and new tools can make it as simple as buying stocks.

Short Selling - Investopedia

Sell Short recommends a strategy using Puts to profit from Falling Stocks. In Chapter 3, Mr. Shulman asks "What Exactly Is a Put?" and then goes on in the paragraph that follows with an utterly wrong definition and/or description which would leave an investor/trader totally mis-informed of the definition of a Put.

Shorting stock, also known as short selling, involves the sale of stock that the seller does not own, or shares that the seller has taken on loan from a broker. Motivation to Sell Short Short sellers take on these transactions because they believe a stock's price is headed downward, and that if they sell the stock today, they'll be able to buy it back at a lower price at some point in the future.
