Download from Docker Hub By downloading Docker Desktop, you agree to the terms of the Docker Software End User License Agreement and the Docker Data Processing Agreement .

Install Docker Desktop on Windows | Docker Documentation

A Docker image is a snapshot of an application and serves as the basis of a container. Once an image is instantiated by the Docker engine via the docker run command the engine spins up a container. The engine instantiates a new process based on the image, and adds a read/write layer to the top of the image to create a container
